

SYLVAN

This week we are making a special sale of the Sylvan Soaps, price of which may be seen in our window. These are superior to many of the high priced imported Toilet Soaps and you will be pleased if you try them. They are delightfully perfumed with either Violet, Heliotrope or that most refreshing odor of the Sandal wood.

One of the Moody wood yard teams ran away Saturday and for a time made things pretty lively. As the wagon was going into a yard out in the southeastern part of the city, the doubletree broke and the team left the wagon and came up town on the run with the singletrees hitting their heels at every jump. They came to a halt in front of the Oregon Supply Company's store but in doing so almost ran over Mrs. J. H. Consino, knocking her down and rendering her unconscious. Later it was discovered that she was not seriously injured, but quite badly bruised.

Our American Stock and Rabbit Fence is made especially for the needs of the Fruit Growers of Southern Oregon as it will turn both rabbits and stock. Sold only by Hair-Riddle Hdw. Co.

Louis Webb, who was recently arrested on the charge of setting fires which burned in the neighborhood of 90,000 acres of timber in Del Norte county, California, has been taken to San Francisco by the U. S. authorities and will be tried at that place. The Forestry Department officials, who are responsible for Webb's arrest claim that they have a clear case against him, and Webb claims he can prove his innocence.

A Fireside Garland Heater is a con tinual delight. On hand in three sizes at Cramer Bros.

Grants Pass covers so much ground that it might well be called a city of magnificent distances. The traveler who happens into town would not imagine that the building going on in the residence section at the present time represents an outlay of over \$50,000, yet such is the case. Added to these are a couple of brick business blocks and other structures in the down town section.

COUNTRY BOYS WANTED FOR BUSINESS POSITIONS

Business men of Oakland and San Francisco, and other large cities, want young men reared in the country to prepare for commercial positions. Experience has shown that the average boy from the farm has habits of industry and integrity that make for success. The Polytechnic Business College of Oakland, Cal., has made a phenomenal record in training and placing young men and women in business positions and the College is so located as to provide homelike accommodations at very low rates. It is said that every young man who has taken the complete course in business training at this College has received remunerative employment upon graduation. An illustrated Catalogue will be sent free to anyone who will write to Prof. W. E. Gibson, 306 Twelfth street, Oakland, Cal. 10-9-1t

THE GREAT REVIVAL AT CHRISTIAN CHURCH

The Whiston revival at the Christian church begins with good audiences. Over 200 the first night.

The general opinion is that Evangelist Whiston is a great preacher. He has unbounded enthusiasm. His sermons are short and pointed and people do not become tired out as with many evangelists. Whiston appeals to thinking people. One characteristic of the attendance is a large number of men, words of praise for Whiston and his methods.

His subjects for Sunday Oct. 11th, 11 a. m. "The Headship of Christ," 7:30 p. m. A sermon to skeptics, "Some Absolute Certainties of the Gospel."

On Sunday night the question box will be started. Whiston has a novel method of using the question box. Mr. Longman, the tenor soloist, is pleasing the people greatly. Words of commendation are heard on every side for his work. He sings two solos every night, the first one early in the service and all who come late miss the first solo.

Each service begins promptly at 7:45 and lasts one hour. The meetings will continue indefinitely.

Mrs. F. M. Lucas is home after a two months trip east during which she visited points in Dakota, Idaho, Minnesota and in the Willamette valley.

CARLOAD JUST ARRIVED

Science has developed something infinitely better than the old-style wrap or clamp.

"PITTSBURGH PERFECT" FENCES ARE WELDED BY ELECTRICITY.

This is the modern method of construction. Years of life are added through the elimination of serious fence defects.

A WRAP holds moisture, cracks the galvanizing and allows the water to attack the bare wire. A small amount of displaced galvanizing on "PITTSBURGH PERFECT" REINFORCES THE PROTECTION AGAINST RUST AT THE ELECTRICALLY WELDED JOINT; examine the joint.

STAYS CANNOT SLIP. They are always just where they were put. Stay and strand wires become one piece when the union is made. The fence is like a solid sheet of perforated steel.

Every Rod is Guaranteed Perfect.

Don't allow your prejudice in favor of the rapidly-declining and now antiquated methods you have heretofore known, to warp your good judgment.

"PITTSBURGH PERFECT" FENCES REPRESENT PROGRESS, because hundreds of thousands of dollars worth of standard material is daily welded by electricity.

The hoop on the average sugar barrel in the isolated country grocery store is an electrically welded product.

If your wagon was made in a large factory, its tires were welded by electricity. Examine them.

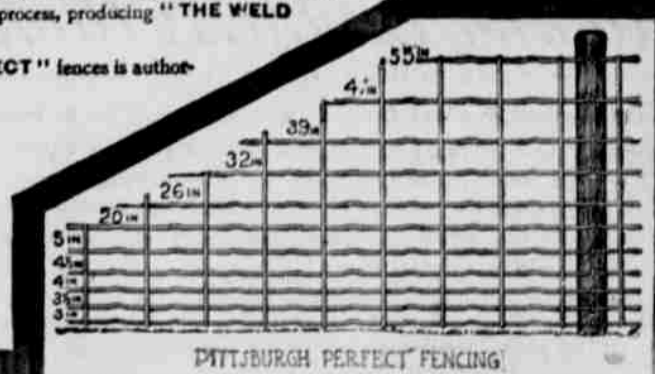

You will find electrically welded hoops on ice cream freezers and washing machines, on many tubs and buckets. Examine them. "PITTSBURGH PERFECT" fences are made by this modern, simple and marvelous process, producing "THE WELD THAT HELD."

MR. FARMER: LISTEN, NOW. Every agent handling "PITTSBURGH PERFECT" fences is authorized to guarantee this:

- That the wires are not injured at the joints.
- That the fence is perfectly adjustable to uneven ground.
- That the stays will not separate from the strands.
- That the fence is all right in every particular.

Could you ask any more definite protection? Your complete satisfaction is absolutely assured.
