The 420 acre place now owned by him was formerly known as the Samuel Harkness ranch, being owned for many years by Harkness. Along in the 60's an orchard of about 10 acres was set out and the fruit brought in Wednesday was from the trees planted at that time, something over 40 years ago. They have borne fruit every year and there is every indication that they will continue to do so for many years to come. An accident occurred to the Williams stage on Tuesday which came near resulting in the serious injury of the occupants. The first entertainment of the Lyceum course will be presented at the opera house Saturday evening, and an excellent attraction was secured for this as well as the three subsequent numbers. In this connection it would be well for the citizens of Grants Pass to remember that these entertainments are not gotten up for the purpose of making money and that the committee in whose hands the matter has been placed are donating their time to bring places here that are well worth seeing. The expense is great and anyone who can possibly do so should purchase tickets, which place tickets were sold as they have been controlled with well but still small places without a guarantee. If tickets are not sold, those who have the most left in hand will be compelled to make up the difference, whereas if everyone helps to buy, the house will not fall short in any way.
