Wm. King, who presides over the Oberhill Vineyard four miles from town in the Fruitdale district passed one more of life's mile posts last Sunday and the occasion was celebrated by a birthday dinner, to which several Grants Pass friends were invited. The guests from this city were Mr. and Mrs. E. L. Churobill and daughter, Mr. and Mrs. J. G. Riggs, Mr. and Mrs. Arthur E. Berrough and son, Mr. and Mrs. E. V. Ingles and daughter. First Oregon Legion N. P. L. held a social session in M. W. A. hall last Friday night over 100 were present. Willer Dodge showed evidence of "having been there before" in a dapper sketch. By debate it was firmly decided that man is not a free moral agent. Mrs. Megargle, Miss Caldwell, and Miss Meiers added to the enjoyment with recitation, song and instrumental music. Mr. McCracken, made a great hit with his paper "Legion News" and a trio composed of Messrs. Minch, Fitzgerald and Dodge brought down the house with their "Peasants." After the program the refreshments served by the ladies were amply appreciated.

James H. Poyner, a carpenter by trade, is a recent arrival from California as is also Earl A. Drake, a farmer from Texas. These gentlemen both came originally from Nebraska, the one going to California and the other to Texas, and both with the same idea in view, that of finding a desirable place to locate. After spending some time in the respective states they determined that another move was desirable, and this time they moved together and as a result are now in the city. They have rented the Kallen tract near the old power house, consisting of 19 acres and will cultivate the land while waiting to satisfy themselves that Grants Pass is really the place they wish to make their permanent home. Mr. Drake will look after the crops while Mr. Poyner works at his trade, should he be successful in finding employment. After a time, if satisfied with this country, (and they are sure to be) they will purchase homes for themselves.

Prof. O'Brien has been interviewing the business men of this city for the purpose of securing subscriptions to defray the expense of painting the beautiful picture of Grants Pass so that it may become the property of the Commercial Club. The picture is very highly praised by competent artists and is admitted to be worth fully \$500 and some place the value higher. As Prof. O'Brien is a public spirited man he has said that if \$125 were raised he would accept that amount and turn the picture over to the club, though \$125 would not begin to compensate him for the time spent in painting it. So far about one-half of the necessary sum has been secured. It is to be hoped that the balance will be forthcoming at an early day as the painting will be of great value to Grants Pass for use in advertising in booklets, etc., and to place on exhibition at the Alaska-Yukon-Pacific and other like affairs. From the picture strangers and home-seekers would be able to see for themselves and form an idea of the beauties and magnitude of Grants Pass and vicinity.

Housekeepers should bear in mind, that when asked by canvassers or grocers to purchase a phosphate baking powder, that if they value their health they will refuse such powder. Phosphate baking powder is made from burning the bones, gathered at slaughter houses, whether from diseased animals or not. It is then mixed with a solution of oil of vitriol.

Such baking powder sells for 25 cents a pound.
