De Witt's Little Early Risers, pleasant little pills that are easy to take. Sold by Model Drug Store.

**A SUCCESSFUL WAY TO GRAFT GRAPEVINES**

A. H. Carson Tells in Better Fruit How to Have Desired Varieties.

As there are many old vineyards in the country that are not commercial varieties which the owners desire to change to those that are commercial, I will say that this change can be easily made by grafting.

To grub out the old vines and plant new takes five or six years before the vines would become profitable, while grafting the old stumps to desired varieties the second year after grafting the grafted vines will bear a heavy crop.

Scions for grafting should be cut about February 1st. For making the scions take the best matured canes of the previous year's growth and put away in a cool, dry place packed in moss to keep dormant.

You can begin grafting the first of March and if your scions are properly kept, i. e., dormant, you can graft until April 15th.

The scion for grafting should contain three buds if short jointed, two buds if long.

In shaping the scion to be set in the stock, it is cut as we cut an apple or pear scion; with a sharp knife cut your wedge well up past the lower bud, leaving the scion thicker on the bud side, so that the pressure of the stock when the scion is placed, will contact with the inner bark of the scion. The scion should be well shoved down in the cleft of the stock, so that the bud will be at least half an inch down from the top of the stock, setting the scion at a slight angle to the bark of the stock and then contact of inner bark of scion and stock will be sure. The old vine to be grafted must be cut off six inches below the surface of the ground. If the stock is very large a thin sharp chisel with a broad blade is used to split the stock to admit the scion. The splitting of the stock need not be at the center, but one side where the grain of wood runs straight. After scion is placed, use binding twine to tie round the stock to press firmly stock to scion. Use no grafting wax, but bring the fine earth in over the stock and around the scion, firming it carefully. If scion after being placed should extend above the surface, mound up with fine earth so as to cover the scion about an inch. The grafting of the pear is a simple operation, and if my suggestions are followed success is sure.

**How's This?**

We offer One Hundred Dollars reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. Cheney & Co., Toledo, O. We, the undersigned, have known F. J. Cheney for the past 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by his firm.—Walding, Kinnan & Marvin, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the mucous surfaces of the system. Testimonials sent free. Price 75c per bottle. Sold by all druggists. Take Hall's Family Pills for constipation.

**We Are King.**

The coming of "We Are King" at the opera house on Monday, Dec. 7, promises to be one of the best attractions of the present season, as the play was used by Mr. Walker Whiteside as a starring vehicle for three seasons and was one of his greatest successes. Mr. Edmund Carroll, who is now starring in this play, was Mr. Whiteside's support for many seasons and from the advance newspaper reports is a most worthy successor.

**REAL ESTATE CHANGES IN JOSEPHINE COUNTY**

Jose X Nelson to J E Hendricks lot in block J, Bourne ad, \$600.

Merlin Townsite & Development Co. to Ethelyn Aikens, lots 13 and 14, blk 22, Merlin, \$100.

**A Common Cold.**

We claim that if catching cold could be avoided some of the most dangerous and fatal diseases would never be heard of. A cold often forms a culture bed for germs of infectious diseases. Consumption, pneumonia, diphtheria and scarlet fever, four of the most dangerous and fatal diseases, are of this class. The culture bed formed by the cold favors the development of the germs of these diseases, that would not otherwise find, vent. There is little danger, however, of any of these diseases being contracted when a good expectorant cough medicine like Chamberlain's Cough Remedy is used. It cleans out these culture beds that are the development of the germs of these diseases. That is why this remedy has proved so universally successful in preventing pneumonia. It not only cures your cold quickly but minimizes the risk of contracting the dangerous diseases. For sale by M. Cleburn.

DeWitt's Witch Hazel Salve is especially good for piles. Recommended and sold by Model Drug Store.

**SCHOOL NOTES.**

A bunch of High School boys are practicing basket ball in the rink twice a week and we hope to have in the near future, a team that will furnish some interesting games for the winter.

The High School students have organized, forming a Student Body, and are doing things in a business way.

The reception given the foot ball and basket ball players by the Student Body on Thanksgiving evening was a grand success.

On Monday evening last, November 30th a debate was held in the assembly hall of the High School in order to choose students for the regular debating team. The question was: "Resolved: That life imprisonment with restricted power of pardon on the part of the executive should be substituted for capital punishment in Oregon. The speakers on the affirmative were: Erol Gilkey, Emma Loughbridge, Geneva Myers and Ejecta Chapman. For the negative: Henry

Norton, Lois Webber, Josephine Randle and Daniel McFarland.

The Editorial Staff of the Tokay met on Monday evening last and made preparations for issuing the Christmas number.

Gordon Griffin, one of our star foot ball players, is unable to attend school this week as a result of the game last Thursday.

The Christmas Tokay will be a great ad for our town. Better subscribe.

Miss Cole, one of the High School students who was injured at the rink by a falling seat, is reported to be recovering.

Evidently one of the places where ice cream and soda are sold in this town does not wish to solicit the High School students attendance, judging from the treatment one of our players and his friends received at this place on Thursday after the game.

To close out our stock of Bain Wagons we will sell one 3 1/2 inch Gear with standard height wheels 5 and 3 in. tires for \$90.00 cash (regular price \$105.00). Also one one-horse Bain Georgia wagon \$60. (regular price \$82). Hair-Riddle Hardware Co.

**Pioneer Assaying and Ref. Co.**

Capital \$100,000. Est. 27 years. Gold base bullion; cyanides, rich ore, etc. bought; assaying 50c. Spot cash on assaying values. 131 5th st. near U. S. Mint, San Francisco, Cal.

Office in brick near Court House

**SPRAY Your Orchards NOW**

For San Jose Scale and use

**Sampson's Concentrated Lime and Sulphur Solution**

Scale lives and works all the year round. Don't forget this. As the old scale dies, the new is ready to carry on the destruction of our orchards.

The scale is less vigorous in the fall, and more easily and surely destroyed than in any other season of the year. Therefore now is the best time to attack it and kill it. If you spray now, many a valuable tree will be saved that otherwise, because of the scale, would not retain life enough to start up in the spring.

YOU HAVE MORE TIME NOW—There is less wind to scatter and waste the spray, and make it hard to cover every part. Then, too, you cannot tell what may happen to prevent thorough spraying in the fall. BUT ABOVE ALL, the results of FALL SPRAYING are absolutely certain, provided, of course, that you SPRAY with SAMPSON'S LIME AND SULPHUR SOLUTION.

**These are all "Spray Facts"**

We claim no wonderful chemical discovery in this spray, but we do claim most emphatically that

**Sampson's Lime and Sulphur Solution always produces satisfactory results, and does no injury. There is no better spray manufactured than Sampson's Lime and Sulphur Solution.**

Sampson's Lime and Sulphur Solution is a clear, cherry-colored solution free from sediment. It is guaranteed to test 30 degrees Baume. If your dealers cannot supply you, write to us. BE SURE YOU USE SAMPSON'S SPRAY.
