#### **ONIONS GROW WELL** MARKET IS GOOD

The question is often asked, why the farmers and gardeners around GrantsPass do not raise more onions Those raised are of the finest quality and the yield is equal to that of the Bermuda Islands and Laredo, ideal for raising onions on a large csale, so few are raised that large shipments are brought in every fall and throughout the winter and spring from Texas, and sell at prices that would net home growers a hand

some profit. In this connection a recent number of Frank Leslie's Weekly says Association, Seattle, January 11th that Texas gives us a practical lesson in the benefits of protection, and, strangely enough, the facts are free trade, the New York Evening Post, our able contemporary, reports that the onion growers of Bermuda are very much moved because the aigh tariff on Bermuda onions imposed by the United States is driving them out of our markets and leaving a clear field for the onion growers of South Texas.

The game, when it is properly In an article on the Bermuda played, is the cleanest, fastest and onion industry in Texas, the Technimost interesting of all sports, calling cal World says that in eight years as it does, for a cool hand and quick the value of the annual product of decision. It is void of all roughness onions in Texas has grown from which places it in a class of its own. nothing to more than \$2,000,000 The team consists of one center, and as a result, land that was two guards and two forwards. Helyoke's Test of Tar Macadam. A year's experience in the use of gas tar produced at the municipal plant in Holyoke, Mass., has increased the con- fidence of the members of the board of public works in the value of that material in the construction of macad- am roads. The tar from the city gas plant costs only 2 cents a gailon as compared with 6 cents or more for the ordinary commercial article. Although not carefully refined and brought to a uniform standard, the material has given good results at a remarkably low cost. As laid in Holyoke a new macadam road can be laid with two pourings of tar on the surface coats for 80 cents a square yard. This year the tar macadam will be used on more heavily traveled streets than those laid	How to Remove Rust Spots. Whenever the ordinary books and eyes have been used on light colored frocks there are almost sure to be spots of iron rust as a result. The very first thing to do is to rip off the fas- teners and get the rustless kind. Then rub each spot of rust with saits of lemon and wash out thoroughly. It may be necessary to repeat this two for three times, but it is worth the trouble. If you haven't this preparation use plain lemon juice. Soak the sait in it, put it on the spot and expose to the sun. How to Remove Mildew. Should the clothes be mildewed the stains may be removed by a mixture containing equal parts of soft soap and starch, half as much common sait and the juice of half a lemon. This may be spread over the spots, and the	Can't control the kidney secretions Girls are ianguid, nervous, suffer pain. Women worry, can't do daily work Men have lame and aching backs.
