Tarring of Roads.

Road tarring is becoming a habit in the automobile districts of England. The old method of applying with hand brushes is now being abandoned in favor of the use of an apparatus which is nothing more or less than a giant air brush. The tar is in a large tank, and two men pump air into it, while a third goes about the road with a pipe having four outlets through which the air throws the tar in fine spray. This rapidly and thoroughly coats the road, Sand is then sprinkled, and the dust is laid for good.

Kodol digests all the food you eat. If you will take Kodol for a little while you will no longer have indigestion. It is pleasant to take, acts promptly. Sold by Sabin's drug

> A Common Cold. We claim that if ontching cold could be avoided sema of the most dangerous and fatal diseases would never be heard of. A cold often ferms a culture bed for germs of infectious diseases. Consumption, pneumonia, diphtheria and scarlet fever, four of

> the most dangerous and fatal diseases, are of this class. The culture bed formed by the cold favors the development of the germs of these diseases, that would not otherwise find lod, ...ent. There is little danger, however, of any of these diseases being contracted when a good expectorast cough medicinal like Chamberlain's Cough Remody is these. It cleans out these culture beds that father the development of the germs of these diseases. That is why this remedy has proved so universally successful in preventing ; monia. It not only curse your cold quality

but minimizes the risk of contraction tangerous diseases. For sale by M. Clem. na 1 50
