Best Treatment for Colds.
"Most ordinary colds will yield to
the simplest treatment," says the
Chicago Tribune, "moderate laxa-
tives, hot foot baths, a free per-
spiration and an avoidance of ex-
posure to cold and wet after treat-
ment." While this treatment is
simple, it requires considerable
trouble, and the one adopting it
must remain indoors for a day or
two, or a fresh cold is almost sure
to be contracted, and in many in-
stances pneumonia follows. Is it
not better to pin your faith to an old
reliable preparation like Chamber-
lain's Cough Remedy, that is famous
for its cures of colds and can always
be depended upon? For sale by M.

NORRIS & ROWE'S
CIRCUS IS COMING

Monday, the 26th, is the Day Set for
the Exhibition in Grants
Pass.

More attention than ever has been
given this season to the free street
display which has always been a re-
markable feature of the Greater
Norris & Rowe circus. Those who
find perennial pleasure in circus pa-
rades will note the unusual attrac-
tiveness in this season's spectacular
pageant upon the streets.

Norris & Rowe claim to have as
great a menagerie as any circus in
the world. They have so many wild
beasts that they can open the dens
to the public gaze and still have a
large menagerie in the animal tent
to appease the most enthusiastic
lover of wild animals. Therefore,
all dens and cages in this season's
parade will be thrown open. The
costumes of the riders are entirely
new and unusually picturesque this

year; more bands of music have been
added; the sleek, well-educated
thoroughbred horses will share in
interest with the superb heavy draft
stock. Camels, llamas, dromedaries
and elephants will lead the proces-
sion. Beautiful new tableaux floats
and artistically carved wagons will
be shown. The two big wagons con-
taining the always-looked-for clowns
have not been neglected, so that the
children may have their annual
laugh. The parade starts every
morning at 10:30 and it always at-
tracts dense throngs to the shopping
districts. The new tiny baby camel
and the little lion cubs will be dis-
played in the parade and once the
children see these features, they will
probably have eyes for nothing else.
The show exhibits in Grants Pass
Monday, April 26.

The Fence the Government Demands

HOW "UNCLE SAM" GETS HIS MONEY'S WORTH

PAGE FENCE bears the high honor of being the standard of compari-
son adopted by the United States Government. Your "Uncle Sam" knows
about the different makes of wire fence and from repeated tests in govern-
ment laboratories and in the field, he knows that one make of wire fence
stands pre-eminent in tensile strength, elasticity and the various qualities
that go to make up a perfect fence. You can easily guess which fence this
is from the fact that when the wise old man wants bids on wire fence
for government parks, Indian reservations, etc., he quietly slips in this
little proviso—PAGE FENCE OR EQUAL. The only "pull" Page Fence
has with the government is its tremendous tensile strength of 80 TONS
Bessemer steel fence wire on the market will stand only half that terrific strain. The best
of Page Fence, all other wire fences on the market are made of common Bessemer steel. Do you
wonder that "Uncle Sam" is one of our steady customers?

The Coil—and the Recoil!
The horizontal wires are
coiled lengthwise and are so
elastic that when stock stamp-
ed into it, or falling trees
crush it, or zero weather con-
tracts it, it springs back, taut
and rigid, the moment it is re-
leased. It is self-adjusting,
over hills, in hollows—any-
where.

Heavy Galvanizing.
Page Fence carries more
pounds of galvanizing zinc and
spelter per ton of steel than
any other fence. Has many
times longer life than ordinary
wire fence, being practically
indestructible.

No Short Strands!
No Welded Wires!
The stay wire is one con-
tinuous piece, firmly secured at
the top and bottom, and is
wrapped THREE TIMES
around every horizontal. This
makes it impossible for hori-
zontal wires to slide up and
down. No short wires fused
by electric heat—Where every
weld makes a weak spot.

Saves Nails, Posts and Staples.
Ordinary wire fencing re-
quires double the number of
posts, nails and staples needed
in erecting Page Fence.

When you add to this, big
savings, the extra years of ser-
vice, and satisfaction that Page
Fence gives, you will see why
this is really the cheapest
fence you can buy.

Let the Government's choice
be yours! Buy Page Fence
and you'll get your money's
worth, the same as "Uncle
Sam."

Our 25 years of experience
qualifies us to give the most
reliable information obtainable
anywhere. Costs you nothing
to consult our experts.
Tells how Page Fence is
made—how we test the liquid
steel—how we weave life, elas-
ticity, service into every inch
of it. It's interesting—and
every word rings true.
