Sabin, The Druggist

Rain Hinders Building.

The rainy weather of the past four weeks has greatly retarded building operations in Grants Pass. There are contracts out for residences and extensive repairs on many houses and all these are at a stand because of the heavy rains and continuous weather. It is to be hoped that the usual bright and balmy December weather will again be with us and give the roses a chance to bloom as becomes the climate of the Rogue River valley.

For Xmas—Sabin has post card boxes.

Herman Horning was missed from his place at the Russell confectionery store Tuesday and it has leaked out that he went quail hunting but no one has been able to find out just how much game he secured. For Xmas—Sabin has cut glass.

A show advertised to be given on Tuesday evening at the skating rink did not make such a hit as the management could have desired, as the crowd was very small, and the free dance advertised to follow the performance was not forthcoming, owing perhaps to the scarcity of dancers to take part. Those who attended declare the affair a complete failure in every particular. An Italian and his wife were the chief participants, a trained dog also being on the program.

Under the above title a very pleasing cantata will be presented by the pupils of the High school at the Opera house on Friday, December 17. The cast numbers about seventy-five and has been in training under Miss Chapman for several weeks. Aside from the cantata the program will be made otherwise pleasing and entertaining by several special features in the way of drills and special music. The proceeds of the evening's entertainment will go to library and to school decoration, one phase of our school work that has been much neglected. "On Plymouth Rock" should, therefore, receive a very liberal patronage and attendance.
