Tongue Broken in Fall.

Amos Smith had an accident to one of his drays on Wednesday which has placed the wagon in the repair shop. One of the horses worked on the dray is a young colt, only recently broke to drive, and in making a turn in front of J. Pardee's grocery store, the colt slipped in the mud and fell down, breaking the wagon tongue in the middle. Here is another eloquent plea for good roads. When the roads are so muddy and slippery that a horse can not stand up in them they are certainly in a bad shape. The horse was not hurt by the fall.

Maud Powell.

"When Maud Powell plays, one thinks not of bowing and fingering, of staccato or legato, of harmonics or double-stops, of trills—though they be, as hers are, Melba-like in their perfection; one thinks only of the music. Like a great actor, she makes one forget the player in the art."—Henry T. Finch in N. Y. Evening Post. Grants Pass Opera House March 14.

Eggs Worth \$2 Each.

The originator of the single comb "Crystal" White Orpington chickens, who lives in Kansas City, Mo., sold to Madame Padewski, wife of the famous pianist, four pullets and a cockerel for \$7,500. The mother of the five fowls referred to is valued by the owner at \$10,000. The state of Missouri has requested a painting of this valued hen to be hung in the state capitol at Jefferson City. It has been left to an Oregon man to bring some of this breed's eggs to Grants Pass, where they are now being hatched in a McClanahan incubator (Made in Oregon). Why keep scrub poultry when you can make more money and bigger profits on a fowl that will dress, when killed, 10 to 14 pounds. The Orpington is known as the money-making hen, the big winter layers. Don't cost any more to feed fine poultry than it does scrub stock. The eggs are neither extra large nor small by any means, but are of medium size and of a rich creamy color. Mr. Goodman, who has the agency for the incubator has the eggs on exhibition at No. 408 Sixth street, near corner K.
