**HAZING HAS STILL ANOTHER VICTIM**

Clarence Gore, Son of Prominent Citizen of Medford, Dies.

Hazing has another death to its credit and this time the victim today says:

As the direct result of hazing at the University of Oregon, Clarence W. Gore died at his home in this city Sunday afternoon. The young man never recovered from a cold contracted while being put through a hazing stunt before Thanksgiving, going into quick consumption. He was forced to leave the university at Christmas and was unable to return.

Young Mr. Gore first sprang into prominence throughout the state last summer when he brought mandamus proceeding against the local school board to compel them to issue to him a diploma from the Medford high school, which had been refused because he was not at the commencement exercises. This action is still pending in the circuit court. In spite of the fact that he never received his diploma, the young man entered the University of Oregon at the first of last semester without condition.

After he had been in the university some weeks Mr. Gore, with four other freshmen, was taken out one night and for three hours was compelled to keep up a huge bonfire for the benefit of the tormentors. The work was enough to keep a score of men busy, but in their efforts to please their superior classmen the young men over-exerted themselves. Especially so was this in Gore's case, who was of a slight, delicate build. He was soon in a dripping perspiration, and although he took the best care possible of himself, afterwards he contracted a heavy cold, which he was unable to throw off.

He came home at Thanksgiving and spent a week trying to build himself up again. He then returned to college, against the wishes of his father, and remained until Christmas. When he came home at Christmas time he was very weak and stated that he was unable to climb a flight of stairs without stopping to rest.

Mr. Gore was a young man of exceptionally high character and ideals. He was a deep student and took an

active part in local church work. His habits were most exemplary and his report cards from the university show his standing there was similar to that in this city. He has a huge host of friends who mourn his untimely death.

Mr. Gore was a native of the Rogue River valley, being born in Ashland 22 years ago on the 19th of this month. His mother died three years ago. Since that time he has resided with his father and two sisters in this city.

Funeral services will be held at the Presbyterian church at 12 o'clock, Tuesday, Rev. W. F. Shields officiating. The remains will lie in state in the church from 10 o'clock a. m. until 12 o'clock noon.

**How Articles Get Names.**

Do you know that the bayonet was so called because it was first made at Bayonne, France? That coffee received its name from the reason that it first came to Europe from Kaffa? That candy was first exported from Candit? That tobacco was so called from the island of Tobacco, the home of Daniel Defoe's imaginary hero, Robinson Crusoe? That the tarantula was a notorious pest in the vicinity of Taranto? That cambric was made at Cambray? That muslin was made at Mouselline? That calico was made at Calcut? That dimity was made at Damietta? That milliners first plied their trade at Milan? That the magnetic property of iron ore was first noticed in that dug in the neighborhood of Magnesia? Ask your friends, and see how many of them know these facts.

**His Wife Saved Him.**

Woman's wit has saved her husband at least once, if a contemporary is to be believed. The husband had gone to his club because a neighborhood scoundlanger had come to call on his wife. He returned some hours later, poked his head into the library and said with a sigh of relief: "Well, that old cat's gone, I suppose?" There was no reply. The husband looked again, and in the corner of the room he saw his wife and "the old cat." The caller was staring indignantly at the husband. The indications were that in a few seconds the fur would be flying. But the man's wife came to the rescue. "Oh, yes, dear," she said sweetly, "I sent it to the cat's home in a basket this morning."

**Would Cut Express Rate.**

NEW YORK, Feb. 7.—B. E. Sundberg, of Kennedy, Minn., upon whose complaint the Interstate Commerce commission is investigating the railroad express companies of the country, declared that in his opinion the companies could reduce present rates fully 60 per cent and still make money. On the witness stand he declared he had been charged seven times as much expressage on many articles as he would have had to pay if he had sent them by freight.

Traffic Manager Ludlow, of the Wells Fargo company, took exceptions to Sundberg's testimony. He declared that if the reduction he demanded of 60 per cent in rates were to be put into effect, express companies would be swamped with business that it has no desire to handle. He declared express matter is handled on fast trains, many of them passenger trains, with the result that express business was necessarily limited. He insisted that a reduction of rates would operate "against the present excellent service."

**Chamberlain's Cough Remedy the Most Popular Because It Is the Best.**

"I have sold Chamberlain's Cough Remedy for the past eight years and find it to be one of the best selling medicines on the market. For babies and young children there is nothing better in the line of cough syrups," says Paul Allen, Plain Dealing, La. This remedy not only cures the coughs, cold and croup so common among young children, but is pleasant and safe for them to take. For sale by M. Clemens.

**Worn Out.**

That's the way you feel about the lungs when you have a hacking cough. It's foolishness to let it go on and trust to luck to get over it, when Ballard's Horehound Syrup will stop the cough and heal the lungs. Price 25c, 50c and \$1.00 per bottle. Sold by National Drug Store.

**Pardoned After Fifty Years.**

After serving 50 years on a life sentence in the penitentiary for the murder of his young wife way back in 1859, John P. Warren has been pardoned by the governor of Connecticut. Warren is now 71 years old, and he goes out into the world which is entirely different than the one he left more than 50 years ago. He is without knowledge of the new methods in all the industries of the country and this will be to him an entirely new age. It is said that his two younger brothers will care for him as he is too old to make his own living. It is claimed that he has been longer behind the bars than any other criminal in the world.

**Alabastine at Rogue River Hdve. Co.'s.**

It is claimed that it is not alone in the cities and in the east that people are paying high prices for everything produced in agricultural regions. C. A. Mills, of Topeka, Kan., says that "at the great sources of food supply prices are quite as high as in older settled communities." He goes on to say that they are paying top notch prices in Kansas for meats, butter, eggs and other food necessities. "My wife complained of this the other day," said he, "and said she thought the farmers ought to sell for prices similar to those of a few years ago, but I reminded her that Kansas farmers are now riding in automobiles, and buy pianos for their daughters, and, with the changes in the agricultural system we never again would see the day of cheap food stuffs."

**When Cooking.**

A cook of ye olden school says all the young cook needs is a paring knife with a keen edge and a goodly amount of self reliance. When the child begins to want to cook cakes and the like, give her the opportunity. Better permit her to spoil the flour in your own bin than in her husband's. Praise every effort, even though the griddle cakes look like shingles. Praise to a girl is the greatest of all help. She will strive to do better the next time.

Alabastine is the most sanitary and satisfactory of wall finishes. You can get it in all shades at Rogue River Hdve. Co.'s.

**Sailors Taught to Swim.**

The following will strike the average reader as one of the essential things for a man to learn whose business it is to follow the water for a living:

Rear Admiral Schroeder, in command of the Atlantic fleet, now at Guantanamo Bay, Cuba, announces that special instruction has been given 2,500 men in the fleet who could not swim.

**TESTED AND PROVEN.**

**There is a Heap of Solace in Being Able to Depend Upon a Well-Earned Reputation.**

For months Grants Pass readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit.

Mrs. Amella Lempke, 402 F street, Grants Pass, Ore., says: "I suffered intensely from rheumatic pains throughout my body and at times I was so stiff and lame that I could hardly get around. At night I lay awake for hours and I got up in the morning feeling miserable. I tried a number of remedies and also rubbed my back with liniments, but I did not get the slightest relief until I commenced taking Doan's Kidney Pills. They freed me from the trouble and since then I have always kept a supply in the house." (Statement given in 1907.)

**A Second Statement.**  
Mrs. Lempke was interviewed on October 31, 1909, and she said: "My former endorsement of Doan's Kidney Pills still holds good. This remedy has certainly worked wonders in my case."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

**Page Wire Fence**

The Fence that OUTLASTS THEM ALL. Admitted to be the Strongest Wire Fence in existence.

Tests by experts prove that PAGE WIRE has double the tensile strength of the best Bessemer steel used in common wire fence. And twenty-five years of continuous test by actual users prove that its durability is phenomenal.

No other wire fence has equalled its record for long and satisfactory service, under the most extreme conditions to which a fence may be subjected.

This wonderful wire is High-Carbon, Basic Open Hearth Steel. It has not been weakened by welding. The Page Knot—THE KNOT THAT WON'T COME OFF—is actually WOVEN of continuous wire and is not a mere "staple" or "hinge" to unwrap or a "weld" to weaken the wires. No kink of the horizontal wire; no raw ends to catch, pull wool or generate rust to poison the whole fabric. The galvanizing is 50 per cent better than is used on common fence wire, giving utmost RUST-RESISTANCE. The spiral coil gives the marvelous ELASTICITY which prevents sagging and adapts PAGE FENCE to hills and hollows.

The coil supplies the TENSION which makes PAGE FENCE self-supporting over a long span, thus saving 50 posts every 100 rods, besides saving staples, nails and labor.

**PAGE RABBIT AND STOCK FENCES**

are the very best that money can buy or modern science produce, they are guaranteed twice as strong as any fences sold; better spaces, they will actually turn rabbits—no guess work or failures, and it is not necessary for "protection against stock, three, four or more strands of barbed wire" to be stretched along side a PAGE FENCE—the fence protects itself.

PAGE FENCE sells for far less money, quality considered, than any other fence—besides we furnish man and tools and assist in the erection of every rod of PAGE FENCE without extra cost. We guarantee every rod.

Examine all fences of all makes then call and we will show you PAGE FENCE and explain its superiority and give you prices on any amount or style.

We fence farms complete, and can give you estimates on any amount of either regular or special fences.
