WOMAN OF 78 MAKES
TRIP TO CRATER LAKE

(The Medford Sun.)

The trip to Crater Lake and back
by team has just been made by a lady
seventy-eight years of age. Mrs. A.
M. Bartoo made this very rough,
steep and tiresome drive and is back
in Medford as well as ever. The
party accompanying her was com-
posed of her son-in-law and daugh-
ter, Mr. and Mrs. G. E. Marshall,
Vernon Marshall, Edison T. Marshall,
Miss Jesse Hope Marshall, Miss Min-
nie Bartoo and Miss Pauline Bartoo.
They went from here over the sixty-
mile drive and back by Ashland, over
a route covering 120 miles. The
road was very stony and covered
many steep hills, up and down, both
going and returning.

They saw some deer and a few
bear tracks, but no bears. It was
a very enjoyable trip for all and Mrs.
Bartoo stood it remarkably well for
one of her years.

Deer Season Opens.

The hunters of Grants Pass and
Josephine county are cleaning their
rifles and getting ready for hunting
the deer. The season opens on Aug-
ust 1, and promptly our hunters will
take to the hills and provide them-
selves with a supply of venison. A
number of our boys will leave Grants
Pass the afternoon of the last day of
July, so as to be in certain localities
favored by the deer when the sport
opens on the morning of August 1.
Of course, there will not be as many
deer killed as is expected by the
hunters, as few, as a rule, are suc-
cessful, but all will have the experi-
ence and the appetite which comes
from a tramp over the hills. The ap-
plications for hunters' licenses have
become numerous at the county
clerk's office and will undoubtedly
increase in numbers from now on.

The Latest Big Gun.

Within the next few months the
world should not be startled if the
United States government gives of-
ficial word that a cannon has been
perfected that shoots so powerfully
and so far that the heavy armament
of other countries will look like
mere popguns.

General Fred D. Grant, who has
just arrived in New York to assume
command of the department of the
east, says such a gun has been per-
fected and is now undergoing final
tests at Governor's Island.

The United States, General Grants
says, has had an explosive under cov-
er for a number of years which, if
fired from a gun strong enough to
withstand the tremendous pressure,
would do the damage now done by a
dozen ordinary 12-inchers. This gun,

he says, has at last been perfected.
"Beyond doubt it is the most won-
derful gun in the world and the ex-
plosive is the most powerful," said
General Grant.
