With the advent of spring and balmy weather comes the roaming peddler, the shoe lace man, the curbstone orator, the vander of patent nostrums of various sorts and what not. Like the migrating members of the feathered world, these more or less unfortunates of earth's great family follow the wave of spring-time northward. Grants Pass these days is enjoying the presence of a phreologist who has been entertaining the public on the Calhoun corner and if anyone wants to know just how much matter he hasn't got he may be able to find out. So far the heads examined disclose but few knockers.
