Dr. and Mrs. F. D. Stricker and Mr. and Mrs. C. L. Hobart returned Monday from a trip to Crater Lake by automobile. They found the trip to the lake rather a tedious one, owing to thick mud since the recent rains, but on the return trip the roads were in much better condition and the drive was a very pleasant one. The doctor says the weather conditions at the lake were disagreeable and as life is too short to take any chances freezing to death, they did not spend the night at the famous natural wonder, but spent only a few hours and started on their return to this city, passing the night at Whiskey creek and returned Monday to Grants Pass.

AN IRRIGATION TALK AT JEROME PRAIRIE

(Special Correspondence.)

Farmers of Jerome Prairie community are deeply interested in the irrigation of our district, and almost every land owner on the Prairie attended the irrigation meeting held last Saturday night. The object of the meeting was to arrive at some conclusion in regard to signing the contracts for water for the coming season. The contracts met with favor with the exception of a few minor conditions. The agent of Mr. Sanders being present the parts taken exception to were referred to him, resulting in a few concessions being made by the company, thus creating a feeling of confidence that Mr. Sanders intended dealing justly with all concerned.

There was a mistaken idea among the farmers as to which ditch would bring water to the Prairie, many supposing it would be a combination of the Fruitdale ditch. Mr. Sanders' agent corrected this impression, stating that the Fruitdale ditch was entirely inadequate to supply the needs of this district, adding that it would be a Jerome Prairie ditch. This is as it should be, as there were four hundred and twenty-five acres of cultivated land represented in the meeting and at a conservative estimate, four thousand acres of irrigable land under the contemplated ditch, all this in and adjacent to the Jerome prairie ditch.

Mr. Kendall of Gold Hill spent Saturday and Sunday with Jacob Gelwitz. Mr. Kendall and Mr. Gelwitz are old time friends, having been long acquainted before coming to southern Oregon.

George May, who has been visiting with his brother, J. H. May and family, left Monday for his home in Dolores, Colorado.

Mrs. Hildebrand and mother, Mrs. Frohbach, who have been visiting at Homewood farm, left last week for their homes in Milwaukee.

An instructive talk was made by Rev. Leslie on Sunday to those who attended bible school. It was appreciated by all.

PORTLAND MINING MAN IN JOSEPHINE COUNTY

John R. Hardin, a mining man of Portland, is here and will tomorrow go to his mining property located in the Sucker creek region, 11 miles from Holland. Mr. Hardin is opening a valuable quartz property on Grizzly mountain. He also has options on the Briggs placer of 80 acres and the Coad placer of 20 acres, and these options are sought by a Mr. Mead, a mining man of Spokane, who will arrive in Grants Pass Friday on his way to the ground. It is quite probable that Mr. Hardin will sell the options to the Spokane man.

On Mr. Hardin's arrival here today he was surprised to find a young cousin, G. O. Hardin, of Vancouver, Wash. The young man is a mineralogist, a recent graduate, and comes to Josephine county to do his first real field work. He will go tomorrow with Mr. John Hardin to the camp at Grizzly mountain. The latter has spent the past three months on his property, going to Portland last Thursday, and returning here today.
