DECLARE STRIKE SATURDAY 30
LOS ANGELES, Sept. 28.—That the long-threatened strike of shop employes on the Harriman lines is but a few hours from an actual reality was indicated here at 11 a. m. today, when fifteen special policemen were sworn in. An official of the police department admitted that these men would be assigned to duty at the local shops. Additional police will be sworn in this afternoon, it was said.
CHICAGO, Sept. 28.—According to a high official of the system federation of the Harriman lines a strike is certain. He said it would be called on Saturday morning.
SAN FRANCISCO, Sept. 28.—When told of the news from Chicago that high officials of the system federation declared that a strike on the Harriman lines is inevitable and will be declared Saturday morning, E. E. Calvin, general manager of the Southern Pacific, said here today he had received no information on the subject, adding that he had no reason to expect any.
PORTLAND, Sept. 28.—Operating officials of the Harriman lines who were scheduled to leave Portland for vacations and duties, today cancelled all outside engagements and will remain here, owing to the seriousness of the impending strike.
J. P. O'Brien, head of the Harriman system in the northwest, admitted that the outlook was threatening, and he has taken charge of affairs.
CHICAGO, Sept. 28.—President Kline of the boiler-makers telephoned James O'Connell of the machinists' union, who is now at Davenport, and other officials to the effect

that the shopmen of the Missouri, Kansas & Texas railroad, affiliated with the system federation, have struck in sympathy with the car men who are not affiliated with the system federation. The points affected by the strike are Denison, San Antonio, Texas; Sedalia, Mo.; and Parsons, Kansas.
Kline had the following to say of the strike situation today: "I have been busy handling the strike situation and have not had time to prepare for our convention in Atlanta on October 2. The reply of Kruttschnitt is very unsatisfactory, and there is nothing in it to alter the situation. The unions have gone as far as they can, and be honorable to their men. Kruttschnitt says the men are treated fairly and wonders why they wish to strike. He says nothing about the physical examinations to which they must submit, the personal record examinations, the rank discriminations and favoritism shown nor the utter disregard of seniority in giving preferences. He says nothing about the railroads riding themselves of the older men or transferring them to new shops. The men insist on having their old positions and will not retreat from their stand. The matter of wages and hours of work is for later consideration. All we are asking for now is recognition of the system federation."
By a special arrangement we are enabled to offer the Weekly Oregonian and the Weekly Courier for a limited period at \$1.50 for both papers. Pay to date at regular rate and \$1.50 for one year in advance.
Wolf Creek School House—
