ROYAL BAKING POWDER

Absolutely Pure

The only Baking Powder made from Royal Grape Cream of Tartar

NO ALUM, NO LIME PHOSPHATE

planted as an experiment on one of our common serpentine barrens upon which none of our native species thrive or produce stands of timber of a merchantable nature.

Cedrus deodora is a forest tree native to India and is introduced into this country for its botanical interests, and also because it is such an excellent timber tree in its native habitat.

Forest planting will be confined principally to our three most valuable trees, namely, sugar and yellow pine and Douglas fir. Practically every bushy mountain slope where conditions are at all favorable for tree growth is suitable for growing either one or a combination of these three trees.

On the Siskiyou National forest there are approximately three acres of light scattered timber and brush to one acre of commercial timber. However, notwithstanding this low ratio of commercial timber acreage, there are roughly estimated to be 14,000,000,000 feet, board measure, of merchantable timber.

The ultimate goal to be reached in the management of a national forest must be to make every acre highly productive. A national forest can be thought of as a "tree factory" where lumber is grown in the rough. As a factory then, it should turn out its product at its full capacity.

By the gradual elimination of the fire danger, by protecting and favoring stands of natural young growth, and by planting nursery grown trees or by sowing tree seed on the denuded areas that have little chance of being restocked naturally, it is hoped to eventually double the estimate of merchantable timber. This would mean the doubling of the annual yield which in round numbers would be 300,000,000 feet, board measure, of merchantable timber.

Even with our present no more than half normal forest, there is sufficient mature timber and new growth coming in to guarantee a sustained annual yield of at least 125,000,000 feet, board measure. This at an average stumpage rate of \$2 (which is undoubtedly lower than the rate we will realize when the demand becomes sufficiently great to make the timber areas accessible) means an annual return to the gov-

ernment for stumpage of \$250,000 and a revenue to the community in the shape of wages of at least \$8 per thousand, or a total per annum of \$1,000,000.

I. W. W. LEADER FINED.

SAN FRANCISCO, Jan. 24.—On police charges that the "Industrial Workers of the World" leaders were "belligerent" and incited street disorders, Judge Walter today sentenced Organizer Herbert Wright to 10 days in jail or the alternative of a fine. Two others were fined.

AVIATOR FURNISHES THRILL.

DOMINGUEZ FIELD, Jan. 24.—J. L. Callan, a Curtiss' amateur, furnished the first thrill of today's flying when he fell from a height of 200 feet at Death curve, where Page met death, barely righting his plane before he struck the earth.

UNCEASING MISERY

Grants Pass Kidney Sufferers Get Little Rest or Comfort

There is little sleep, little rest, little peace for the sufferer from kidney trouble. Life is one continual round of pain. You can't rest at night with a bad back, with twinges and "stabs" of pain, with annoying urinary disorders, backaches, lameness and nervousness. You can't be comfortable at work with darting pains and blinding dizzy spells. Neglect these ailments and serious troubles follow. Begin using Doan's Kidney Pills at the first sign of disorder. You will work better as the kidneys get better, rest better as your back grows stronger. Grants Pass readers will find convincing proof in the following testimony:

John McCallister, of Murphy, Oregon, says: "For about a year I was afflicted with kidney complaint. My back was very painful, particularly when I stooped and ached so severely that I could not sleep well. Work of any kind tired me, and I was languid and nervous. The kidney secretions passed too frequently at night and I noticed much sediment in them. Some time ago I began using Doan's Kidney Pills and they gave me prompt relief."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

L. E. SCOTT WRITES THAT HE GETS DIVORCE.

L. E. Scott, who, with his wife, owned a ranch near Grants Pass, and who got into the courts as a result of trouble with the woman, in which she charged he took her diamonds and other valuables, writes from Texas, where he is now living, to an acquaintance here that he secured a divorce from Mrs. Scott January 5 in Chicago.

After their trouble here the Scotts became reconciled and lived together again. Scott writes to his acquaintance here that after he and Mrs. Scott went to live together that the woman produced the diamonds and other stuff she accused him of stealing. She contested the divorce action in Chicago, writes Scott, but he won the suit, and without alimony being ordered.

F. B. OLDING RETURNS FROM CALIFORNIA AND MEXICO.

F. B. Olding has returned from California and Mexico, where he and Mrs. Olding went December 29. Mrs. Olding remained in San Diego, where she will be until the middle of March. Mr. and Mrs. Olding made stops in San Francisco, in Los Angeles four days, Pasadena to attend the rose festival and see Aviator Rogers fly over the town and drop roses from the sky, then to the ocean shore towns, then to San Diego and Coronado, then for a run into Mexico.

Mr. Olding brought back some Mexican cigars and other tropical desiderata not found in northern climes. Ask him.

NO CAUSE TO DOUBT.

A Statement of Facts Backed by a Strong Guarantee.

We guarantee immediate and positive relief to all sufferers from constipation. In every case where our remedy fails to do this we will return the money paid us for it. That's a frank statement of facts, and we want you to substantiate them at our risk.

Recall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness, or other undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity.

Recall Orderlies are unsurpassable and ideal for the use of children, old folks and delicate persons. We cannot too highly recommend them to all sufferers from any form of constipation and its attendant evils. That's why we back our faith in them with our promise of money back if they do not give entire satisfaction. Three sizes: 12 tablets 10 cents, 36 tablets 25 cents and 80 tablets 50 cents. Remember, you can obtain Recall Remedies only at our store—The Recall Store Clemens sells drugs.

LOCAL MEN AT LAYMEN'S MEETING IN MEDFORD.

A number of Grants Pass men went to Medford to attend the meetings of the Laymen's Forward Movement in session at that place. This is a national movement and the Oregon meetings were held at Medford and Portland. Among those who attended were Rev. F. C. Lovette, A. L. Edgerton, H. T. Hull, Wm. Brower, Chas. Fessenden, F. L. Warren, Leslie Warren, Ben Harmon, Arthur Conklin, R. K. Hackett, John Riggs, J. R. Elder, D. A. Fitzgerald and James Pilgrim. Geary McCracken and Russell Drake were also members of the party.

Dr. T. Stackhouse, national secretary, and Dr. F. W. Padelford, Massachusetts secretary, were among the principal speakers. On Friday a banquet was given at the Nash grill.

For pains in the side or chest dampen a piece of flannel with Chamberlain's Liniment and bind it on over the seat of pain. There is nothing better. For sale by all good dealers.

WALDO HILLS TO BE REFORESTED BY A CREW.

The work of reforesting the brushy mountain sides that heretofore have been a feeding ground for deer and a hindrance and nuisance to everybody else, is being begun by the forest service. The work is, however, being carried on on a small scale and must necessarily be so until definite conclusions can be reached as to which method of sowing or planting will produce the best results.

One year ago last spring a small forest nursery was established near Waldo, and the first lot
