## LORENA WARNER DIES.

Word has just been received by Grants Pass friends of the death of Lorena Warner at Everett, Wash., on Tuesday, April 23, Miss Lorena with her father E. E. Warner, and family, left Grants Pass for Everett on the Saturday previous, and they arrived at their destination Sunday.

Deceased has been a sufferer for several years from the white plague, tuberculosis, and she was very weak when they left their old home, hoping her life would be spared until they were among their old friends again. The funeral occurred Thursday, attended by a great number of friends and the floral offerings were many and beautiful. The pall bearers were young men members of the class with which she would have graduated had her health admitted.

Miss Warner passed her twentieth birthday anniversary in March and was a resident of Grants Pass nearly three years.

## SCHOOL PUPILS IN A MUSICAL PROGRAM

Friday, May 3, under the direction of Miss Helen McAdow, the pupils of the public schools will present a pleasing musical program. This musical will be given at the Grants Pass opera house and doubtless every seat will be sold long before the curtain rises on the evening of May 3.

Nearly 400 children will take part in the program, which will consist of choruses, duets, quartets, solos and other features, and will set forth the cycles of spring, the cycle of flowers, the cycle of insects and others. A small fee of admission, 15 cents and 25 cents will be charged, the proceeds to go to purchase library books.

Seats will be placed on sale Wednesday morning, May 1, at 10 o'clock.

## CITY SELLS BONDS.

(Continued from Page 1.)

seemed to him, were costing more than last year. McLean moved to lay the matter of the engineering bills over to the next regular meeting. Adopted.

A discussion arose as to the recent remonstrance on improvement of Josephine street. Stricker remarked that the legally required number of signers did not appear on the remonstrance. Everton and Clark championed the cause of the remonstrators. Everton read notes showing that nine lots against eleven lots, or the owners thereof, were opposed to the work. Clark remarked that two property owners affected had stated that if the work was done now that they would lose their property, that they could not pay the assessments. The question was disposed of temporarily by being referred to the street committee.

McLean asked what progress had been made with the Southern Pacific regarding the city's offer to purchase the lots at the new city hall site. Auditor Johnston replied that Judge Colvig had sent a telegram to Portland, and the reply was that the matter had been referred to the San Francisco office, and a reply was early expected.

An ordinance was read for the first and second time, the title of which was: "Concerning the management and accounting of public moneys of the city of Grants Pass." The ordinance provides that any officer, agent or employee of the city "who shall receive or collect any money or monies from any person, persons, company or corporation for said city, shall within—hours after having received the same, deposit said money in such bank in the said city as shall be designated by the city treasurer, which deposit shall be made to the credit of the treasurer."

Section 2 reads that, "every officer of the city who shall collect or receive any money for said city shall keep the account of the same separate from his personal account in any bank in which he may deposit the same;" and section 3 reads that "any officer or agent of the city who shall violate any of the provisions of this ordinance shall upon conviction be fined in any sum not exceeding the sum of \$300."

The blanks for "hours" and fine will be filled in at the third reading, if the measure gets through. It was referred to the judiciary committee.

An ordinance was read for the first and second time making it a misdemeanor for any person to sell, barter or give to "any minor under the age of — years, any cigarette, cigarette papers or tobacco for manufacturing cigarettes, or any compound in which tobacco forms a component part." The penalty is made a fine of \$5 to \$50. The ordinance also provides that "it shall be unlawful for any minor under the age of — years to smoke any cigarette in any public highway, street, place, square or resort in the city of Grants Pass."

The penalty is made a fine not exceeding \$10. Referred to the judiciary committee, which will fill in blanks for age limits. Clark moved that the age at which any minor be allowed to do these things be made "75 years."

"Out of order Mr. Clark," said Chairman Stricker, "the ordinance has been referred to committee," and the chairman's face was "hard set."

Another ordinance introduced was passed with the emergency clause. It is a law to prevent obstruction of sidewalks, and there was some easy voice mumbling around the big table to the effect that the principal effect of the ordinance was to prevent goods and wares being piled on Sixth street by auctioneers. The ordinance as introduced carried an exception for builders acting under permit, and for merchants who were receiving or shipping goods in bulk. McLean amended the ordinance to include a clause preventing anyone from digging a ditch or excavation, without suitable bridge, across any sidewalk. The amendment was adopted. Herzinger said "it is time we were keeping the sidewalks clear," and moved the emergency clause. The ordinance went through first and second reading and when it came to a final vote to make it a law the roll call showed all councilmen voting yes, except Chairman Stricker who cast a nay vote.

The ordinance fixing the annual license for opera houses at \$75 received its third reading.

A representative of a manufacturer of vitrified sewer pipe then addressed the council, extolling the virtues of the vitrified article and "beating" the cement article. When he had finished his talk the council adjourned.

## NOW IS TIME TO SPRAY SAYS FRUIT INSPECTOR

(By J. F. Burke.)

The time to spray for codling moth is at hand. Just as soon as weather will permit this work should go forward as rapidly as possible. The calyx of the pear does not close at once after the dropping of the petals, as do the apple. On the contrary, they remain open sufficiently long so that the pear trees may be sprayed at the time of the first spraying of the apple trees for codling moth.

The main object in spraying for this pest is to fill every calyx or cup full of the poison. It is generally conceded that two-thirds of the larvae enter the apple or pear through the calyx, hence the necessity of filling the cavity with the poison. However, a too early spraying is not desirable, as it would interfere with pollination of the blossoms.

When the spraying has been thoroughly done you will find the trees dripping. The indications now are that we will have a bumper fruit crop, and it is up to us to make the quality first class. So get ready now. Use 2 1-2 pounds of arsenate of lead to 50 gallons of water, and apply with a good power spray.

J. F. BURKE.

## LOUIS A. HEBERLIE ATTEMPTS SUICIDE

Louis A. Heberlie, one of the most widely known old-timers in Josephine county attempted last night at his home, 468 F street, at midnight to take his own life, but failed. Heberlie used a razor making a long slash on his throat, also slashing one of his wrists in an attempt to cut an artery.

The wounded man was discovered waltering in his blood, and a surgeon responded to a hasty call. Twelve or 14 stitches were taken in the wound on the throat. It is stated that the razor blade did not sink deep enough to make a necessarily fatal wound, and the weapon failed to reach an artery when applied to

## AS GOOD TODAY AS IN 1843

Acknowledged the One Best Wagon Made. The Old Reliable PETER SCHUTTLER Farm Wagon has stood the test of time. For sixty-nine years it has represented the utmost in wagon perfection—for sixty-nine years it has been built in the same painstaking, old-fashioned way.

Wagon troubles, wagon expenses are over with when you purchase the "Peter Schuttler." The purchase price is the only price. Although the price may be a little more than you would have to pay for some other makes, the additional cost is an investment—not an expense. The profits on a "Peter Schuttler Wagon" are no more than the profits on cheap wagons. The added cost goes into added quality, and it is this added quality that saves repair bills, avoids break-downs, reduces after purchase expenses. It will pay you to investigate. Come in and inspect the Schuttler before buying. FOR SALE BY
