"Nugget King" Visits Grants Pass—N. Jerry, a character well known in the Rogue River valley, is in the city today, and is exhibiting some recent acquisitions to his display of gold nuggets, of which he already had enough to satisfy any ordinary man. Among the nuggets which Jerry has purchased on this trip is one weighing out over \$700, found in the Siskiyou district. He also has some from the Kerby district that, while not classing with this Siskiyou mammoth, are beautiful nevertheless. Jerry is credited with having some \$3,000 or \$3,000 invested in nuggets.

WORDS FROM HOME.

Statements That May Be Investigated. Testimony of Grants Pass Citizens.

When a Grants Pass citizen comes to the front, telling his friends and neighbors of his experience, you can rely on his sincerity. The statements of people residing in far away places do not command your confidence. Home endorsement is the kind that backs Doan's Kidney Pills. Such testimony is convincing. Investigation proves it true. Below is a statement of a Grants Pass resident, no stranger, proof of merit can be had. J. M. Jones, N. Fifth St., Grants Pass, Ore., says: "I am glad to confirm all I said in praise of Doan's Kidney Pills, when I publicly recommended them some years ago. Kidney trouble caused me much misery and although I tried one remedy after another it was not until I began taking Doan's Kidney Pills that I found relief. They regulated the passage of the kidney secretions, removed my aches and pains and restored me to good health. Doan's Kidney Pills deserve my heartiest endorsement." For sale by all dealers. FREE MILLING LEDGE PROVES TO BE RICH

A second shipment of bullion from the recently discovered vein of high grade ore on the Victor mining property on Galice creek was made Monday, the present shipment being of 35 ounces 11 pennyweights of the precious metal; this amount representing the hand mortaring of six pails full of the decomposed quartz, each pail holding but two gallons. As this bullion brings about \$18 per ounce, the present shipment, the product of twelve gallons of dirt, will return at least \$1,000. This vein, which was uncovered only a few weeks ago, is on the surface of the Victor mining property, owned by Norberg Brothers, the discovery having been made by John Carlson, Geo. Colvin and Oscar Sharfack, Galice prospectors. The vein of high grade ore is from four to five inches wide, and has been traced a distance of one hundred feet on the surface, when a better idea of the magnitude of the find can be obtained. The gold so far taken out has come practically from the surface, and while that mortared has come from the narrow vein, at least four feet of the rock from each side of this seam will pay good values for hand rocking. Samples of the ore from the mine, exhibited here yesterday, bear out all the claims for richness that have been made for it; the gold appearing as much in evidence to the naked eye as the quartz in which it was held.
