

GRANTS PASS LOSES GAME TO MEDFORD

(For the Courier By T. F. Hanley.) Only a small crowd at Medford yesterday braved the cold weather and threatening clouds to witness the home team defeat Roper's Grants Pass champions, by a score of 6 to 1.

Burgess, the Medford high school Southpaw, who used to "blow up" in the seventh or eighth inning, but when going right, was always a stumbling block for Grants Pass,

pitched against Hopkins, Burgess did not weaken yesterday at any time and seems to be gaining strength with years. He allowed only three hits—a two bagger to Baker, and singles to "Dinky" Williams and Schmidt. Burgess struck out 12, and walked only one, which is mighty good pitching. Hopkins struck out 7, walked four, had one wild pitch, hit 3 batsmen and allowed 5 hits.

Five of the Medford batsmen reached first through errors, the Grants Pass aggregation, indeed, being yesterday prolific in misplays.

Williams made three miscues, Russell Wood and Baker each two, and Captain Weckler one.

"Shorty" Miles collided with Wood in the sixth, forcing the latter's retirement from the game, Weckler going to first, and T. Riggs to second.

Manager Fuson had practically all the old Medford stars in his line-up—Horton, Miles, Isaacs, Wilkinson and Antle, and will fetch this combination to Grants Pass for a return game next Sunday.

Manager Roper is not downcast over the defeat, stating that it will have a good effect on his boys, who, through a long succession of victories, may possibly become possessed of a notion that they are unbeatable and infallible, and think they carry a talisman in the form of a hairy amulet welded from a rabbit's foot.

IMPORTANT LETTER TO ALL WHO SUFFER.

"I suffered from indigestion for a long time. Last May I almost died. The doctor told me it was acute indigestion and I could not be cured. Since that time I have suffered very much, as some days everything I ate, even light food, as soft boiled eggs, would distress me. I lost fifteen pounds. Sometimes I felt that I could not live another day. A month ago I got a box of MI-O-NA tablets. Before I had used them a week I was better. I have used two boxes and I feel as well as I ever did. Eunice A. Peters, Jackson, Ga. Use MI-O-NA stomach tablets for quick relief from sour stomach, heaviness, heartburn, belching of gas and distress after eating. They are guaranteed. SENATE REPORTS ON TITANIC DISASTER

WASHINGTON, May 28.—The United States senate sub-committee, which investigated the sinking of the White Star liner Titanic, with a loss of more than 1,500 lives, following a collision with an iceberg off the Newfoundland coast last month, formally presented its report to the senate today.

The principal findings were as follows:

That the Titanic was running at the rate of 24 1/2 miles an hour at the time of the collision.

That all on board would have been saved but for the "negligent indifference" of the liner Californian to answer the Titanic's distress signals.

That of the vessels near the Titanic at the time, only the Carpathia assisted.

The report recommends increased life-saving apparatus and regulation of wireless equipment; restrictions in manning the vessels, compulsory searchlights and generally revolutionary reforms in the construction of ships.

WASHINGTON, May 28.—

Teeming with eloquence, combining praise for heroism and scathing rebuke for negligence and cowardice of the most appalling marine disaster of history, was the final and official requiem today in the senate for the victims of the Titanic. Senator Smith, of Michigan, chairman of the senate investigating committee, summed up his views of the evidence developed.

That every soul aboard the giant steamship might have been saved, but for the indifference, in almost criminal neglect of Captain Stanley Lord and the other officers of the "Californian" was the most startling charge Smith bitterly made.

"Needless sacrifice" of at least five hundred lives because the "strangely insufficient number of life-boats," were not filled, was also charged.

"Obsolete and antiquated shipping laws" and "laxity of regulation and hasty inspection" by the British board of trade were denounced by Smith. As a contributory cause he named the indifference of Captain Smith, of the Titanic, for ignoring the warning and forcing the Titanic full speed through the northern waters. That Captain Smith had expiated his offense by a heroic death was Smith's tribute to the dead commander.

Lack of discipline among the crew and cowardice of some of its members, indicated after the crash, was scathingly arraigned. To the two Titanic wireless operators, Phillips and Bride, the senator paid a glowing tribute. He lauded Captain Rostron, of the rescue ship Carpathia.

Not a word of criticism for J. Bruce Ismay, managing director of the steamship Carpathia, was uttered by the Michigan senator, but he caustically criticized the White Star Line for the action in withholding news of the disaster, received, he said, sixteen hours before it was reluctantly divulged.

In eloquent terms, the chairman depicted the folly of sending out the greatest ship afloat without sufficient tests, a strange crew and no drills or discipline. The Titanic, he said, was following the proper course, although one known to be dangerous at that season, but the speed was gradually and continually increased until the maximum was the death blow.

Rebuke for those in half-filled life-boats who stood by and refused aid to struggling, drowning swimmers until "all the noise had ceased," was voiced.

"Upon that broken hull," the senator concluded, "new vows were taken, new fealty expressed, old love renewed, and those who had been devoted in life went proudly and defiantly on the last life pilgrimage journey. In such a heritage we must feel ourselves more intimately related to the sea than ever before, and henceforth it will send back to us on its rising tide the cheering salutations from those we have lost."

TAFI TALKS WHILE NEW JERSEY VOTERS ARE BALLOTING.

PITTMAN, N. J., May 28.—Carrying on his campaign for New Jersey's 28 delegates in the republican national convention right up to the hour when the balloting started throughout the state, President Taft reached here this afternoon, making ten speeches during the morning. Everywhere he urged the voters "not to depart from the wise tradition which limits a president to two terms."

In addressing a gathering of school children at Woodbury, the president predicted that woman suffrage would soon be the general rule rather than the exception. After his meeting at Young's Pier at Atlantic City last night, the president walked along the broad walk, breathing the sea air. Within 30 minutes a huge crowd had gathered, following at his heels.

SCHMITZ READY FOR MORE POLITICS.

SAN FRANCISCO, May 28.—Is former Mayor E. E. Schmitz, against whom the last graft indictments were dismissed by Superior Judge Lawler Saturday, after a five years' battle in the superior courts here, a broken, dispirited man, embittered by his experience and of the opinion that the game of politics is not worth the candle?

He is not. Schmitz emphatically denied today that he has been made a pessimist by his experiences. He declared that never, even in the darkest hours of his trouble, has he been wistful to return to the position of orchestra leader, from which he was taken and made mayor of San Francisco by Abe Ruef, one time boss of the city and now in San Quentin prison for helping debauch a city.

Indeed, Schmitz declares positively, that he is not through with politics; that he will again enter the political arena in the near future.

"My faith in my fellow men and myself," said Schmitz with a smile, "has been kept alive by the constancy of my friends in my adversity. I would live the past 5 years over again for that."

CITIZENSHIP PAPERS REVOKED FOR FRAUD.

WASHINGTON, May 28.—Holding that lower courts have the right to review and revoke the citizenship papers of any applicant where there is fraud in the record, the United States supreme court today approved the cancellation of the citizenship papers of John Johannsen of San Francisco.

Johannsen was found guilty of perjury in his application for citizenship papers, it having been proved that, despite his assertions, he had not been in the country five years.

"DIDN'T SEE SHERMAN" IS LORIMER'S STATEMENT.

CHICAGO, May 28.—Denying that he even saw Vice President Sherman during the latter's recent visit here, Senator William Lorimer left today for Washington.

Lorimer's denial is in refutation of current reports that Sherman had gone to Chicago to notify Lorimer that the senate would expel him unless he quickly resigned.

DEAFNESS CANNOT BE CURED.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

NO CASH FOR WARSHIPS.

WASHINGTON, May 28.—The naval appropriation bill, carrying provision for no battleships, was passed late this afternoon by the house.

WASHINGTON, May 28.—By a vote of 125 to 80, the house this afternoon rejected the Roberts amendment to the naval appropriation bill calling for an appropriation of \$12,000,000 for the building during 1913 of two battleships, each vessel to cost \$6,000,000. The amendment, introduced by Congressman Bartholdt, providing for only one battleship, also was defeated.

The debate on the two amendments was extremely bitter, the

Democrats standing by the agreement reached in caucus. Another fight on the same provisions is expected when the bill comes to final vote.
