

It's Not How Much You Pay For Clothes, It's How They Look On You That Count.

Some men whom we know invest a small fortune in clothes every season, but still never appear either smart or well-dressed. This is due either to their own poor taste or the disinterestedness of the clothiers they patronize.

The clothes we sell you, regardless of the price you pay, will fit your personality. They'll look well on you.

We have made it a rule to be candid with a customer and not to sell him clothes which, to our experienced minds, are not becoming.

Don't think that a high price will get you high-toned clothes unless you know how to make your selection or deal with a clothier who can guide you. You might come in some time and let us demonstrate our ability.

Come see what \$15 or \$20 will do.
