GREAT REMOVAL SALE

Nothing Escapes the Slaughter

Faster and faster falls the lash of Price Cutting; deeper sink the spurs of Bargain Giving, into the sides of our splendid \$35,000.00 stock--sending our sales up with a rush into the hundreds of dollars worth a day, and the race has just begun.

Our Extraordinary Prices tell of our determination to let go of the goods no matter what the sacrifice--We don't have to tell you we're cutting prices-- You know it-- Every one knows it.

Don't Wait a Day, You can't Afford to! Come Today.

MEN SAY CELEBRATE

(Continued from Page 1.)

J. M. Isham—I am strongly in favor of a home celebration of the Fourth of July in Grants Pass this year.

G. W. Donnell—Why, yes, let us have, by all means, a good celebration on the Fourth of July.

Sam H. Baker—You may mention that I am in favor of getting up a Fourth of July celebration and of making it a good one with all drawing features.

Geo. S. Calhoun—Yes, let us celebrate the Fourth in this good year of 1912, and if we succeed in making the event a success, it will do us a powerful sight of good.

H. C. Kinney—I favor a celebration at home this Fourth of July. It will be the very best policy we can adopt this year.

R. L. Coe—I think it will be a mighty good thing to celebrate the Fourth this time. We can't afford not to do so.

Dr. J. C. Smith—I don't think a Fourth of July celebration can be made a success in a dry town.

CLUB ARRANGES MUSIC FOR CHAUTAUQUA.

At the meeting of the Grants Pass Music club, held Tuesday evening in the Commercial club rooms, the matter of furnishing a musical program for Grants Pass day at the Southern Oregon Chautauqua at Ashland, July 19, was taken up and a committee composed of Prof. Applehoff, Prof. Field, Prof. MacMurray, H. G. Marshall and T. P. Cramer, was appointed to have charge of that feature.

Mr. Hanley spoke of the Swedish singer, Mme. Jennie Norell, who, with Herbert Riley, violoncellist, and Edith Halnes-Kuester, pianist, will probably be in Grants Pass June 14, and he desired the co-operation of music club members, which wish to hear high class artists.

At the close of the excellent program President Kinney gave words of praise for the excellent work of the program committee in supplying musical numbers for the monthly meetings, and also words of thanks for the performers who have made the meetings of so much pleasure to all who attend.

McCormick SELF-DUMP HAY RAKE

Convenient--Durable--Easy to Operate.

In the purchase of a hay rake the important things to look for are ease of operation and strength of rake and wheels. The wheels are too often the first parts to wear out. The McCormick self-dump rake is designed to meet these requirements, and is exceptionally durable and convenient. It is adapted for raking all conditions of hay. It is made with the same care and gives the same satisfaction that is so characteristic of the McCormick line of machines. It rakes clean, dumps quickly, and the teeth return to the ground promptly after the windrow is passed.

The illustration above shows the simple design and construction of the McCormick self-dump rake. The wheels have staggered spoke and heavy steel tires.

The teeth of the McCormick rakes are made of selected spring steel which has great strength and resiliency. The points of the teeth are shaped so that they will get all the hay without digging into the ground or picking up stones. The rake can be operated with one or two horses, simply by adjusting the shafts. The wheels are fitted with removable hubs which can easily be replaced at a small cost, thus practically renewing the wheels. This rake is designed to have the greatest strength and rigidity with the least weight. It will be found that the McCormick rake meets every requirement for gathering hay into windrows.
