Teachers Being Examined

There are 33 teachers taking state examination this week at the Central school building. Nine of them are from Jackson county and the remainder are Josephine teachers.

Dr. Walker Buys Farm

Dr. Walker has purchased the 61-acre farm of Robert Huck, in the Fruitdale district, and will develop the place as an up-to-date fruit ranch. The place is now partly planted to fruit, and it will be completely planted this fall.

Three New Fords Delivered.

C. L. Hobart, of the Madrona Land Co., W. P. Counts of the Counts feed store, and R. S. Adams, a sawmill man, are each driving new 1912 passenger Ford touring cars received this week through Joseph Moss. Mr. Moss still has orders booked and is awaiting cars for delivery.

Woman With a Gun

The loss of cherished chicks was the cause of one woman starting out with a six-shooter which was flourished in a neighbor's house in a search for the family cat. The cat in question proved an alibi and no damage resulted aside from the loss of the chicks.

Another Auto Off the Grade

The Galice road was the scene of another near-serious automobile accident Sunday, news of which was so well guarded by the participants that word has only reached this city in a round-about way. A. N. Parsons and family and their guest, A. W. Butler, were driving near the Cook place, 10 miles down the river, when the machine was inadvertently thrown into the reverse and backed off the grade. It was overturned but the top protected the occupants from injury.

High School Library

The High School library will be open every Friday afternoon from 4 to 5 o'clock, beginning with Friday of this week. High school students should take note of this and avail themselves of this opportunity.

Headed for British Columbia

Mr. and Mrs. Hobart left Thursday morning in their car to meet the travelers, but on reaching Grave creek they decided to turn back on account of the slippery condition of the road, made so by the recent rain.

DO YOU WISH TO SATISFY YOURSELF

DAIRYMAID CREAM HARVESTERS ALWAYS SATISFY

If you wish to satisfy yourself as to the best and most profitable way to handle your milk, buy a Dairymaid cream harvester. It has proven its merits by the demand for it from farmers and dairymen everywhere. The Dairymaid has become so well known that you should have no hesitancy about securing one at once. It has many valuable features, embodying all the good features of other machines as well as possessing many exclusively its own.

The Dairymaid cream harvester was designed by expert men who had in view the requirements of the up-to-date farmer and dairyman. It is constructed throughout of the best material and possesses ample strength and perfect alignment.

The gears are simple and are protected, eliminating all danger of the operator's clothing becoming tangled in them. It is easy to operate and keep clean, and has efficient separation.

The low supply can found on the Dairymaid does away with all heavy lifting.

When buying a separator keep in mind that if your wife and daughter also operate it, they should have the lightest running machine. Such is the Dairymaid. Call and examine it.

Pioneer Miner in the City

Dan L. Green, who came to the Rogue River valley in 1856, and who, since 1869, has been engaged in the mining industry at Galice, was in the city Thursday. Mr. Green says that in the more than half century that he has followed the fortunes of the miner in the Rogue district he has seen countless thousands taken from the earth, but that there are still millions to come from it, and he anticipates a great revival of the industry. Unfortunately, in his own district, a number of the larger mining propositions have lately been tied up in litigation, but these Mr. Green thinks are now in a fair way to adjustment.

TEAMS ARE BUSY HAULING TO ALMEDA.

Several teams are busy between Merlin and the Almeda hauling lumber for construction at the property, and furnace supplies for the smelter. The roads are said to be in better condition than ever before, which will make it possible for the big property to continue uninterrupted operation for some months, by which time the new Almeda road from the mine to Leland will probably be completed, affording much cheaper transportation of the Almeda reduction plants.

QUESTIONED CLEARED UP.

Courier Readers Can No Longer Doubt the Evidence.

Again and again we have read of strangers in distant towns who have been cured by this or that medicine. But Grants Pass' pertinent question has always been "Has anyone here in Grants Pass been cured?" The word of a stranger living a hundred miles away may be true, but it cannot have the same weight with us as the word of our own citizens, whom we know and respect, and whose evidence we can so easily prove.

Mrs. Henry Nutt, 4 Ishem St., Grants Pass, Ore., says: "Doan's Kidney Pills have been used by three members of my family and one who took them was cured of gravel. After the remedy was taken gravel as large as peas came away with the kidney secretions. The trouble then stopped and the person is now well. Doan's Kidney Pills brought about a complete cure in this case and as it occurred under my own eyes, I can testify to what they will do."

TACOMA, June 20.—Tanako, Yoshio, Nakahara Iso, Mayeda Mume and Sakai Mitsu, four little Japanese brides that arrived on the Seattle Maru from Japan Sunday for four Japanese residents of this section, are being held at the detention station here because afflicted with hookworm.

The eager grooms are clamorous but the government refuses to let the brides enter the country until they are free from the disease. They will be given a chance to take treatment for a short time and if cured, may come in, otherwise they will be deported and four little brown men will go wifeless.

CHICAGO, June 20.—Launching of Colonel Roosevelt's boat today tied up the republican convention platform framers. The resolutions subcommittee recessed after two hours of unsatisfactory progress, to meet again on call of Chairman Charles W. Fairbanks.

Of the nine members of the sub-platform committee only the six Taft representatives were present. The Rooseveltites refused to enter into the discussion, although Governor Hadley was present for a few minutes just before adjournment.

COL. BRYAN THROWS "HAT IN THE RING"

CHICAGO, June 21.—Colonel William Jennings Bryan threw his hat into the Baltimore ring today when he declared open warfare on the selection of the democratic nominee for temporary chairman—Alton B. Parker—and announced his intention of leading a fight to prevent the ratification by the convention of the national committee's choice.

Bryan's deft, which took the form of a telegram to all the presidential candidates whom he regards as progressives, was followed by the announcement that he would leave here for Baltimore tomorrow.

The telegram is regarded as an adroit move by Bryan to put each of the men addressed on record as to his progressiveness. Neither Underwood, Governor Harmon nor Governor Marshall of Indiana was addressed by Bryan. His telegram reads:

"In the interest of harmony I suggest to the sub-committee of the democratic national committee the advisability of recognizing as temporary chairman some progressive acceptable to the leading progressive candidates for the presidential nomination. I took it for granted that no committeeman interested in demo-

cratic success would desire to offend the members of a convention overwhelmingly progressive by naming a reactionary to sound the keynote of the campaign.

"Eight members of the sub-committee, however, have, over the protest of the remaining eight, agreed upon not only a reactionary, but upon one democrat, who, among these not candidates for the presidential nomination, is in the eyes of the people most conspicuously identified with the reactionary element of the party. I shall be pleased to join you and your friends in opposing his selection by the full committee or by the convention. Kindly answer here.

(Signed) W. J. BRYAN."

CHICAGO, June 20.—While the committee on credentials thrashed out in detail the contested seats which have resulted in the blocking of the wheels of republican national convention, the convention held a perfunctory session of 4 minutes today. The only business transacted was the prayer of the chaplain. After this was out of the way, a motion for a recess until 4 p. m. was carried unanimously.

Until the credentials committee reports on the roll of the convention no business can be expected. It is generally believed that a report cannot be had before then at the very earliest.
