

## CARLOAD OF CANS FOR THE CANNERY

ORDER PLACED FOR DELIVERY WITHIN THE WEEK.

## CARE FOR LOGANBERRIES

County Growers Association Makes Provision to Care For Surplus of the Berry Crop.

The Grants Pass cannery will commence operations this present week, this course having been determined upon at a meeting of the board of directors of the Josephine County Growers' association held Friday night.

The loganberry crop in the valley is greater than had been anticipated, and to care for this it was concluded that the institution should begin canning as soon as the cans could be brought here, and the car ordered is now expected to arrive by Wednesday. This car will include 12,000 gallon and 24,000 2 1-2 pound cans, 36,000 in all.

The cool and moist weather has held the berries back somewhat in ripening, but even at that the local demand for the loganberry is about met, and the price has fallen to fifty cents per crate, no attempt having been made to ship the green fruit. A few hot days now will bring the crop on very fast, and the growers would undoubtedly have met with loss if the Growers' association had not met the emergency. The berries are not yet ripening in the north, and to take care of the surplus crop that we may have during the early part of the week before the arrival of the car of cans, J. W. Lucas is looking up a trade to the north, and the association will probably make shipments into that territory, sending them from here by express. Growers should keep Mr. White, in charge at the cannery, in touch with the quantity of berries that they will probably have for the cannery.

The cannery is now in excellent repair, new tables and other furniture having been built, and the premises have been completely renovated and cleaned till they are spick and span and resplendent in paint and whitewash. Forty cords of wood, recently purchased, are being delivered at the cannery, and the boilers will be ready to steam up with the first delivery of loganberries this week.

A call for payments on the stock will be made and stockholders are requested to liquidate by the middle of the week, as the cash is required in making the purchases of cans and necessary new machinery to get the institution in operative condition. The cannery is to be operated on a strictly co-operative basis.

## MARQUIS HUNTS JOB.

San Francisco, July 2.—"Go get a job and then I'll marry you." This is the answer given here today by Miss Emily Coulston of New York, better known by her stage name of Theo Carew, to a proposal of marriage by Marquis Piero Marcone, an Italian nobleman. The marquis, who has lost a \$3,000,000 fortune, started out early today in search of work.

"I shall make good before night," he told Miss Carew.

## FORMER MISSOURI SUPREME JUDGE SUE'D BY HUBBY.

Joplin, Mo., July 2.—"I was too busy with my work to keep an eye on Robinson, and he got my wife."

This was the declaration here today of Charles B. Killingsworth, a street car motorman, who has brought suit for \$50,000 against Former Judge Walter M. Robinson of the Missouri supreme court on charges of alienating Mrs. Killingsworth's affections.

## DECREES O. & C. LANDS REVERT TO GOVERNMENT.

Portland, July 1.—Judge Wolverton of the federal district court today signed the decree in the Oregon and California railroad land grant suit forfeiting 2,016,851 acres of unsold land in the grant made by the government in 1856 for the construction of the Southern Pacific railroad. The land is located in every county in Oregon west of the Cascade mountains with the exception of Clatsop county. The decision forfeiting the land was handed down April 28 by Judge Wolverton after the case had been pending for four years.

The Southern Pacific has appealed the case to the circuit court of appeals at San Francisco.

## HOME-MADE CANNON SALUTES FLAG RAISING.

The new 12x26 flag purchased by popular subscription among the business men arrived and was officially unfurled to the breeze at a flag-raising at the railroad park Tuesday evening. The event was ushered in by a salute of two guns fired from the new cannon that has just been cast at the local foundry, at the second shot the colors being hoisted to the top of the staff.

The salute was fired from a home product cannon that is a perfect piece of workmanship, being made at the foundry, cannon and carriage complete. The gun is made first from a cast iron shaft, about which is cast a brass jacket, mounted on a cast carriage with cast wheels. It is smoothly made, and is as handsome as it is noisy.

## WORLD PEACE SUBJECT DISCUSSED AT PORTLAND.

Portland, July 1.—Four sweeping changes tending toward a change in the attitude of humanity toward war were made by the special commission on world peace which was reported today to a sectional meeting of the World's Christian Citizenship conferences in session here.

The recommendations are: Inaugurate a plan for the systematic discussion of the true meaning of Christ's doctrine of the Brotherhood of Man; inaugurate in the schools a course of instruction on international conciliation; agitate legislation to forbid publication of misleading facts in regard to the international differences, holding newspapers liable under the libel laws; regulate the requirements for American naturalization along lines of intellect, physical condition and morals, rather than along lines of race, color and nationality.

The report was read by Professor Edward Krehbiel of Leland Stanford University, chairman of the commission.

The report declared that the history of the world has been little more than a catalogue of wars, but that the tendency of today is along broader lines, showing the development of civilization in all branches.

That divorce is the one great evil that threatens the dissolution of American family life was declared at a section meeting of the conference. National legislation was decided to be the only satisfactory check upon this growing menace.

Co-ordinate with this, reforms in divorce court procedure, more solemnity in the marriage rites, restricting the number of eligibles to matrimony to those physically fit, and educational efforts starting with childhood, were recommended. Those who discussed the question were Charles Merie D'Abigne of Paris; Prof. R. C. Wylie of Pittsburg; Rev. Edwin H. Deik of Philadelphia; Rev. J. M. Wylie of Kansas City and W. H. Heidergraff of Pittsburg.

Prof. D'Abigne said that in Paris infidelity is a greater evil than divorce. He urged civil marriages in America similar to those required in France previous to the ecclesiastical ceremony.

## CITY READY FOR BIG CELEBRATION

DECORATIONS BEING PLACED ABOUT STREETS.

## AVIATOR RIDDELL IS HERE

Program of Events for the Two Days Contains Many Features of Great Interest.

The members of the various committees for the Fourth of July celebration met at the Commercial club rooms Tuesday night, all reporting progress with the details practically all arranged.

Today the decorators are busy dressing the town ready for the thousands of visitors who will be here, and it is assured that the principal streets of the city will present a beautiful appearance. The first work of the decorators is the placing of a group of four flags upon each cluster light on the streets, a wooden collar having been built around the light post to hold the flag staffs. Thousands of yards of bunting are ready for the placing, and some novel effects in window display and decoration of building fronts are promised. The committee that had the decorative features in hand has impressed the beauty of uniformity upon the people, and there will be a harmony of design that will be most effective.

Messrs. Riddell and Birnie, the aviator and his mechanic, are getting the aeroplane assembled, and will have it out for a trial flight on the third so that there will be no disappointment to the crowd when the time for the flight on the 4th arrives. The aeroplane was recently shipped from Los Angeles to Rickreall, Oregon, where several successful flights were made, a slight accident one day a week ago damaging it somewhat, but new parts were at hand, and the machine is now in perfect condition again. Mr. Riddell has been flying in California during the past year, his flight at Grants Pass to be the first in the north.

The parade that is to take place at 9:30 o'clock will contain many novel features that will come as surprises to the people. The fraternal order floats will be especially attractive.

The program as outlined will be as follows:

- July 4th.**  
 9:30 a. m.—Grand street parade.  
 10:30 a. m.—Public speaking at Railroad Park and Music by Chorus of 100 voices and Orchestra.  
 1:00 p. m.—Aeroplane flights and exhibition by John A. Riddell at 10th and D streets.  
 1:00 p. m.—Clay pigeon shoot at Gun Club grounds.  
 3:30 p. m.—Baseball at ball grounds. Grants Pass vs. Weed.  
 7:30 p. m.—Band concert at Railroad Park by Central Point band.  
 8:30 p. m.—Grand display of fireworks, followed by dance and Mardi Gras on Sixth street.

- July 5th.**  
 9:00 a. m.—Sports and races at Railroad Park.  
 10:00 a. m.—Baseball at ball grounds, Grants Pass vs. Central Point.  
 1:00 p. m.—Baseball at ball grounds, Weed vs. Grants Pass.  
 3:00 p. m.—Horse races and Motorcycle races at Dimmick race track. First race between aeroplanes and motorcycle.  
 7:30 concert.

## GIANT'S MANAGER AND PITCHER ARE SUSPENDED.

New York, July 3.—John J. McGraw, manager of the New York Giants, and Pitcher Brennan of the Philadelphia Nationals were each suspended five days by President Lunch of the National League here today as a result of their recent fist fight in Philadelphia. Brennan also was fined \$100.

## CAPT. SIMMONS AND MOTORCYCLE COLLIDE.

A collision between the Coffenberry motorcycle and Cap. Simmons and his Josephine baggage cart Tuesday night came near putting the captain in the hospital. The captain was just going to meet the 10:20 train and Bert Coffenberry was leaving the depot on his machine. The lights were not burning on the motorcycle, and the captain not having his danger signal out, a head-on collision resulted. Simmons was severely bruised, and it took him an hour or two to get his ribs all in proper place again, but he says that after having gone through what he has in his time it will take more than a little thing like that to put him out. The motorcycle and the cart were not so fortunate, and the expense bill on the former will be considerable.

## ANTI-ALIEN LAW CONDEMNED AT CONFERENCE

Portland, July 3.—The anti-alien law passed by the recent California legislature, depriving Japanese from the ownership of agricultural lands, came in for condemnation today at the hands of several speakers at the immigration conference of the World's Christian Citizenship conference. Among the speakers was Dr. S. Motoda of San Francisco and Tokio, who prefaced his address with the remark that he was glad that the discussion on this subject was taking place in Portland and not in San Francisco.

In discussing the California law and the causes leading up to it Dr. Motoda said in part:

"The law just passed concerning alien land ownership in California has created no small degree of anxiety. I do not expect any rupture of the long and friendly relations between the two countries, for this association is too dear to be broken by legal agitation.

"California is a small part of the United States and we appreciate the kind efforts of President Wilson and Secretary Bryan, who have tried to settle this matter peacefully.

"I have found the Japanese in Seattle and Portland contented. Only in California are they receiving unkind treatment. If it is race prejudice we cannot make our legs longer or our skin white. If it is race prejudice, we have no help, but must only wait.

"I believe the main cause of the anti-Japanese feeling is because they do not mix with the other peoples, and therefore do not make the best of citizens.

"But the Japanese can be assimilated and I think a Christian nation can do it."

According to Rev. Arthur L. Wadsworth of San Francisco, the newspapers, Governor Johnson and the legislators, were all in favor of the anti-Japanese laws, but that all the people were not. Wadsworth condemned what he termed the "yellow journals" of California, which he said had fostered the anti-Japanese feeling. He also stated that in many ways the Japanese were the peers of the Americans in California and that the whites are afraid of an industrial invasion on the part of the little yellow men.

## HIGH COST OF LIVING SOLVED BY MR. CROSS.

London, July 2.—The problem of the high cost of living has been solved by F. J. Cross, a food reformer here, who by experimenting on himself, has proved that a man can live in England, "in perfect health and enjoyment" on six cents a day. This was his food supply for a week, as he told the Charity Organization society:  
 Three loaves of bread, one pound of oatmeal, one pint of milk, one pound of beans, one pound of dates, one pound of rice, five ounces of oleomargarine, two ounces of lard, half a pound of potatoes, half a pound of sugar and 1 1-2 cents worth of tea, pepper and salt.

## CREAMERY IS NOW BEING ERRECTED

BUILDING OF STRUCTURE ON H STREET COMMENCED

## MACHINERY IS ORDERED

Butter Factory Expected to be in Operation Not Later Than the First of August.

Work has been started on the Rogue Valley creamery building, located on H street, between 7th and 8th, the workmen having been busy all day Saturday making the cement foundation, and getting ready for the carpenters, who will be on the job this week. A large force of men will be kept at work and the building will be under roof by the end of the week.

Manager Bates returned from Portland and Seattle Saturday, he having been in the northern cities to purchase the creamery machinery, shipment of which will be made to reach here as soon as the building is ready to receive it, and it is confidently expected that the institution will be making butter before the end of July. Mr. Bates purchased the most approved up-to-the-minute butter making machinery, the investment for which is \$2,500. The machinery purchase was made through the DeLaval Dairy Supply Co., of Seattle.

## MANY CHOIRS ENTERED IN PITTSBURG SONG FEST.

Pittsburg, July 2.—Sixty-five choirs from Ohio, Pennsylvania, Illinois and Indiana cities were entered in the competitions of the International Elstedded which opened here today and will continue the remainder of the week. A male choir of sixty voices from Wales and a women's choir of 59 voices from London are among the entrants. Children's choirs competed in two events today, with Canonsburg, Pa.; Lorain, O.; Newcastle, Pa.; McKeesport, Pa.; and Johnstown, Pa., represented. Besides the competitive singing, thirty-five composers today submitted new national anthems in a special prize contest.

## RACE FOR RECORD AROUND THE WORLD.

New York, July 2.—A race for a new record around the world was started from New York early today by John Henry Mears, a newspaper man and traveler of experience. He plans to circle the globe in 39 days, about five days less than it ever has been done.

Belgrade, July 2.—Dispatches from Uskub, received here today say that the Serbian forces are pursuing the Bulgarians along the entire battle front and have secured several important positions.

## ARMY OFFICER WEDS ST. LOUIS BRIDE AND BONDS.

St. Louis, July 2.—Captain Birch Oliver Malaffay, U. S. A., is \$25,000 richer today because of his marriage here to Miss Elizabeth McBride of St. Louis. This amount in railroad bonds was given to the couple by the bride's father, but they were made out in the army officer's name. The couple will sail from San Francisco Saturday for Honolulu.

## Bunting Was Ruined—

Some of the bunting that had been draped about the lamp posts before the rain Wednesday night was damaged through a running together of the colors, but it will be replaced with new and bright bunting by the morning of the Fourth. The decorators have been busy all day, and the streets already present a gala appearance.

## ANDERSON PICKED TO WIN IN FIGHT TODAY

Los Angeles, July 3.—Bud Anderson will attempt to climb another rung of the fight ladder at Vernon tomorrow, when he meets Leach Cross of New York in a scheduled 20-round go for the "logical contender" title. Incidentally, the boys will furnish July 4 amusement for about 10,000 fans who can't see the fight between Ritchie and Rivers at San Francisco, but anticipate "something almost as good" in the way of a card.

In spite of reported floods of Anderson money from the Pacific northwest, the odds remained practically unchanged today, with Bud a 10 to 7 favorite. The betting has been light. Continued warm weather enforced idleness at both camps today.

Los Angeles, July 3.—Leach Cross: Do you think I would have passed up three good matches in New York and taken a chance of being put out of the lightweight running by taking on Anderson unless I was sure I could beat him?

I'm not afraid of his punch, and I expect to uncork a brand of speed that will make the game easy for me. I have a punch, too, you know. I want Ritchie or Rivers next.

Bud Anderson: I'm glad the fight is for tomorrow, for I am just right so far as condition goes. I can hit just as hard as ever, and I think I'll win. I'll fight from the start. I want the championship and I am going right after it from the first gong tomorrow. McCarey has promised me to try to get me the winner of the San Francisco scrap tomorrow if I win.

Jim Jeffries: The man with a wallop is the man for me, and I pick Anderson to win decisively. I must stay with him on general principles, until he is heked, but I don't think this is the time for trouble to Anderson.

## SERVIA HAS NOW DECLARED WAR

Vienna, July 3.—Serbia formally declared war on Bulgaria tonight, according to dispatches received here from Uskub. The Ser lan army is at Uskub and King Peter and Premier Pachitch also are there.

Bucharest, Roumania, July 3.—King Charles today ordered the general mobilization of the Roumanian army. It is believed certain that Roumania has decided to fight beside Serbia and Greece for her share of the territory taken by the allies from Turkey.

## NEW WESTMINSTER PREPARES FOR PANAMA TRAFFIC.

New Westminster, B. C., July 3.—Leading all the cities of the Pacific coast of Canada, New Westminster today celebrated with appropriate ceremony the driving of the first pile of the first unit of its harbor improvement scheme, designed to place the fresh water port of British Columbia in a position to meet the demands upon it, consequent upon the opening of the Panama canal. The scheme in its entirety involves an expenditure of \$6,000,000 and has the backing of the dominion government which has sanctioned the formation of the New Westminster harbor committee to administer the port.

## FIVE CHILDREN CREMATED IN BURNING HOME.

Valencia, Pa., July 3.—Five children, ranging from nine months to 11 years, were cremated in Middlesex township, early today, when the home of W. A. Hays was burned to the ground. An overheated stove caused the fire. Hays made an heroic attempt to save his children, but failed.

## SOUTHERN CALIFORNIA HAS LEMON SHORTAGE.

Los Angeles, July 2.—Southern California is experiencing today an unprecedented shortage of lemons as a result of last season's damaging frosts. The price of fancy lemons now is \$7.50 per box, the highest in years. Dealers predict from \$10 to \$12 a box before the summer ends.
