MEETING "PROSPERITY"

Our campaign aimed to show how "Prosperity" can be brought to all of us is causing considerable thought among some of our readers who have started their scrap book and are going to follow through. There has been many queries concerning the book, "T. N. T.—It Rocks the Earth," by Claude M. Bristol, the theme of which opened our eyes to the great power existing in every man and woman. In view of the fact that no distributor in Southern Oregon carries this book, we have made arrangements with the publishers to get a limited supply of this result getting book which may be obtained for one dollar. The book will make your study of this interesting theme much clearer, and we positively know anyone who follows through with this theme, gets what they want.

The secret of "Prosperity" is doing it over and over again. Doing the same thing so many times it becomes second nature to do them. You get the habit and can't stop. When you get into this position with your thoughts, creative thoughts, constructive thoughts, you're getting some place.

Those who become proficient at any task have practiced until they are experts at it. Those who do things well, have made a study of what they are doing and continual practice puts them at the top of the ladder because they have given the job thought and the necessary application to make the grade.

That is all this theme amounts to—Application! Application of thought. When the thought is strong enough, the urge is there to back it up and both together spells "Prosperity."

It is not hard work to think. There is no manual labor attached to it. You merely use your think tank until it registers—When this happens, you have met "Prosperity," for those who apply themselves and stick to it, win the battle.

If you haven't been serious about this before—why not start in now and be successful, but more than anything else, be happy? You can if you will. Start in today with the thought that I am going to get ahead. Make up your mind on what you want, and then concentrate constantly upon this object. Keep thinking about it day and night. Believe that you will receive it and when your belief is strong enough, the miracle happens and you arrive at your destination.

A SYMPHONY OF THOUGHT

Whenever a city as a whole becomes inoculated with one thought, one purpose, and constantly strives for that thing—There is nothing on earth can stop that city from attaining its objective. This thought is right along the line of the above article on "Prosperity."

Thriving little cities thrive because the men in them all think along the same line—Success. Of course, business is good because they think that way. And when mass thinking is focused on good business, that's exactly what will happen—business will be good.

Cave Junction is in need of a little mass thinking. It is in need of thoughts of cooperation. It is in need of a little more belief in the Golden Rule. These are the first requisites to good business. If cooperation and a willingness to help each other is not there—How can we expect business to be good?

It is high time for the business men of Cave Junction to do a little thinking on their own account. If we would all get together and begin thinking along constructive lines—"you scratch my back and I'll scratch yours," the city of Cave Junction would rise up like a mushroom over night and become one of the most important cities on the Redwood highway. It has all the ear marks—it has all the advantages—But until we can get the brotherly spirit of helping each other, we will continue to struggle along and do the best we can under the circumstances. The pitiful part is, we are not only hurting ourselves with our negative thinking, but the entire valley is handicapped for the lack of a symphony of thought.

TAKING THE SPOTLIGHT

With Japan cutting up didoes in the Orient, attention is distracted from Hitler, et al. While Japan attracts attention, Germany is about ready to slip into the Free City of Danzig without opposition and the rest of the world will just look on.

Japan is taking the spotlight away from Germany

and Italy at present while plans are being laid for another coupe of some sort or another. Soon it will be Italy's turn to grab attention while Japan and Germany lay more eggs for another hatching. It's working beautifully.

A FINE EDITION

We have on our desk the special edition of the Humboldt Standard of Eureka, California, devoted to the industrial and recreational life of the community. To say the least, it is one of the finest editions of its kind we have ever seen, and while published in one of the smaller cities, would do credit to Portland or San Francisco.

Congratulations, gentlemen! Your initiative justifies your vision of the future which is coming to you and rightly deserved.

Summer has "came" as last. Goody-goody-goody. We have been asking for it, so don't complain. Just patronize the ice cream soda shops and try to act normal, it will be here for quite a spell. We of the great Illinois Valley should not complain, for the nights are cool and sleep is sweet, if your conscience is clear.

The services last Sunday were well attended. Among our visitors were: Mrs. Floyd King, her two daughters and brother-in-law from Tulelake; Mrs. F. O. Hallock and Mrs. McMillen of Cave Junction and several men from the CCC camp. Evelyn Hays was a Sunday school visitor.

Next Sunday, June 25, we will have services as usual with an important afternoon service. There will be a baptism at 2:30 in Suck-

er creek at the Bridgeview bridge with seven young folks to follow Christ in this Rite. You are invited to attend this as well as all our meetings.

The little church with the big welcome. Ed Wright, pastor.
