MEETING "PROSPERITY"

How many of you saw the picture, "The Star Maker" with Bing Crosby last Wednesday and tonight? Those of you who saw it will remember Crosby telling the youngsters to repeat again and again that they were good actors, they said it over and over again and he told them to believe it.

Just another phase of what "T. N. T." teaches. Keep saying it until you believe it and the deed is accomplished.

It really seems a simple thing to do. Keep repeating the same thing over and over again and when you have said it constantly, you, yourself will begin to believe it is true. This belief generates confidence in others and they begin to believe, they in turn give the belief to someone else, and on and on it goes until it becomes a reality.

What do you suppose could happen to this wonderful valley if every one in it began believing that we were all prosperous and getting along fine? Why, we would all be prosperous and we would all be getting along fine, there would be no other way.

We know that when the stomach is empty it is hard to believe it is full. But those who make a sincere effort in believing, soon get a full tummy, and the believing is the thing that does it. It just won't happen if you don't believe.

Monday is New Years. Will those of you who are interested in this theme definitely make up your mind on something that you want, and then start working on the idea that you are going to get it? Say it to yourself all the time that "I am going to get—(give it a name and call it by name). Keep saying it until it begins to sink in, and soon you will be delighted with the responses that come your way. Give this idea an earnest trial, surely the effort cannot be wasted, and we know what will happen — You'll get what you want, and you won't be shaking hands with "Prosperity" and you won't even know it.

And can't we beg all of our readers to give some time and thought to the future of the Illinois Valley? We are on the verge of great development. We know we are, but we want all of you to believe that we are going places and doing things that will bring everlasting happiness and good health to all in the valley.

Start holding the thought constantly that we are going to succeed and prosper. Stick to it and watch miracles work for you.

RECLAMATION POSSIBILITIES

The announcement this week that an engineer from the United States Reclamation Bureau was here investigating the possibilities of a reclamation project in the valley is timely and indeed welcome. We have contended that a reclamation project was the only way we would get adequate irrigation for this section. It is the only method that will satisfy the permanent water rights, and we don't blame the holders of the water rights to guard them carefully. But a reclamation project, would not only protect existing water rights, but would give additional water to those who wanted it.

IT'S TRUE!

By Wiley Padan

New York, N. Y. — "IT'S TRUE! that the largest number of midgets ever gathered together anywhere in the world, were assembled to play the Munchkins in M-G-M's 'The Wizard of Oz,'" says Wiley Padan. "Sixty-two shades of all possible colors were used in the large Munchkin Village set. The screen version of L. Frank Baum's famous story will be made in Technicolor. Mervyn Le Roy, producer, is planning to send the entire Village set to the New York World's Fair following completion of the picture."
