TASTES SO GOOD !

Melo-Rex Cough Syrup has one outstanding feature in addition to its excellent medicinal value and that is its TASTE. The mellow, honey-like flavor of this cough syrup makes it most pleasant to take. Children, even, will take it without a whimper.

Then the cool, soothing feeling it leaves in a cough-irritated throat stays for many minutes while the other ingredients have time to work and help break up the congestion.

Melo-Rex is good for trouble-some coughs and for bronchial irritations caused by colds. Take Melo-Rex according to the directions on the label and be certain of getting the best results.
