Extensive Irrigation (Continued from Page One)

ever underlain by a deep gravel fill which is saturated annually with water to within a few feet of the surface. Development of the area is possible through a gravity diversion system for early summer irrigation and for groundwater pumping later in the season. By confining such development to the lower lands, average lifts should not exceed 25 feet, and no provision need be made for artificial replenishment of the groundwater. Over expansion would necessitate not only higher pumping lifts, but might also draw the groundwater down more rapidly than it would naturally replenish itself, thus necessitating construction of diversion works and a water spreading system for replenishment. Immediate agricultural expansion is possible through private or cooperative enterprise. Organization of the entire valley would have advantages in the systematic and economical development of the water resources. The seasonal generation of low cost electric power in the Merlin area for use here would be advantageous to this irrigation development.

WALDO
None of this area of approximately 800 acres, lying north of Waldo and west of the east fork of the Illinois river, is now being used for agriculture. Most of it is covered by brush and timber of medium and small size. Mining is the principal enterprise carried on at present.

Agricultural development as a relatively low cost is possible through the use of water now being used for placer mining. Not only is it possible to use the water both for mining and agriculture without conflict, but its use for irrigation will serve to desilt it, thus eliminating a point of controversy between mining and recreational interests. This development might be carried out independently of other parts of the county through the organization of a private or cooperative irrigation company.

O'BRIEN

Along the Redwood highway in the vicinity of O'Brien school in the southern part of the county, a small area may be developed agriculturally by means of pumping from wells or from the west fork of the Illinois river, or by gravity diversion from the river. Pumping from wells with a lift probably not exceeding 25 feet, seems wholly practicable at present power rates. This may be done independently of other areas, although low cost electric power which may be made available in connection with other areas obviously would be advantageous.

Public services are justified here partly because of location on a federal highway and the existence of nonagricultural employment (mining, forest, and recreational services).

Garden Club (Continued from Page One)

Pope, Bill Wales, Charles Smith, Eric Johnson, Kenneth McFarlin, Minnie Eggers, Fred Eggers, Clyde McLain, Betty Strong, Charlene Miller, Wesley Harbord, Yvonne Payne, Ernest Krauss and Russell St. John.

Kerby Rod & Gun (Continued from Page One)

Representatives are requested from every organization in the county, and it is hoped that the

organizations in the valley will respond a hundred per cent. Make an effort to attend this meeting. Light refreshments will be served.

CHURCHES

ILLINOIS VALLEY CHURCH OF SEVENTH DAY ADVENTISTS

Sabbath School at 9:30 a. m.
Preaching Service 11:00 a. m.
Prayer meeting Wednesday at 7:30 p. m.

Loyal Defenders 7 P. M.
Preaching 8 P. M.
Prayer meeting, Wednesday night 8 P. M.

Visiting Scouts Meet At Kumfy Kamp

On Friday evening, May 17, Troop No. 19 of Prospect, Oregon, under the leadership of R. Peterman, Scoutmaster and J. Davis, visited local Scout Troop No. 28, in quest of the Totem of the one-eyed eagle.

The meeting was held outdoors around a large campfire at Kumfy Kamp. Following the opening ceremony the visiting troop put on a very fine first aid demonstration, afterwards the scouts held a wiener roast, topped off with ice cream and cookies and a delicious cake baked by Mrs. Clyde Hays.

The highlights of the evening arrived when Scoutmaster Huber presented Scoutmaster Peterman the trophy of the one-eyed eagle. The eagle brought about the meeting and friendship of Troop No. 19 Prospect and local Troop No. 28 of the Illinois Valley.

Pine Cone Inn Open Under New Management

Mr. and Mrs. S. K. Barnes, formerly of Glendale, Oregon, have leased the Pine Cone Inn, on Redwood highway, from Mr. and Mrs. Keith Coon and have taken charge of the camp.

Mr. and Mrs. Barnes are going to have the cafe open all during the year and are having their opening next Sunday, May 26, and will feature a full course dinner. The valley residents are cordially invited to the cafe at any time. The cafe will be open all day for short orders and dinners, but will specialize on Sunday dinners from 4 p. m. to 8 p. m.

SAN FRANCISCO—United States senators and congressmen representing Redwood Empire counties and the states of California and Oregon are being urged to actively support HR9575, which calls for a \$200,000,000 federal aid highway appropriation for the fiscal year 1942-43.

UNITED STATES DEPARTMENT OF THE INTERIOR GENERAL LAND OFFICE O. AND C. ADMINISTRATION PORTLAND, OREGON

Sealed bids, marked outside "Bids for Timber," and addressed to the Chief Forester, O. C. Administration, 410 Custom House, Portland, Oregon, will be received until 10:30 A. M., Pacific Time, June 7, 1940, for the purchase of timber upon tracts hereinafter described; cutting and removal of the timber to be carried out in accordance with the forest practice rules approved on July 7, 1938 by the Secretary of the Interior. Each bid must state the amount per thousand feet, board measure, that will be paid for each species or class of timber. No bid for less than the appraised value will be considered. Each bid must be submitted in duplicate and be accompanied by a check or cash for the amount of the bid. The deposit must be in the form of a certified check on a solvent National Bank and in favor of the Chief Forester of the O. and C. Administration. The amount of the deposit will be computed at the rate of at least 20 per cent of the first \$1000 of any estimated stumpage value; at least 10 per cent of the next \$9000 of estimated stumpage value and at least 5 per cent of any additional estimated stumpage value in excess of \$10,000 and up to \$25,000 in amount. The deposit of any successful bidder will be credited as a first installment in the payment of the timber. Checks of unsuccessful bidders will be returned upon award of the bid. A bond on all sales will be required in an amount computed at the rate of at least 20 per cent of the first \$10,000 of the bid, plus 10 per cent of any additional amount of the bid in excess of \$10,000. Payment for timber will be required in advance of cutting, payment in full at the time of filing the contract being required in sales amounting to \$2500 or less. In larger sales, payment may be made in a number of installments scheduled to keep pace with the rate of timber cutting and payment upon demand from the Chief Forester. The successful bidder in each sale exceeding \$5000 in amount will be required, prior to the approval of the contract covering such sale, to furnish a sworn financial statement showing ability to fulfill the terms of the contract. For copies of the form of proposal, form of contract and bond, and other information, application should be made to the Chief Forester, O. and C. Administration, Portland, Oregon. The timber volumes, given in the following appraisals, are estimated and may be more or less than the amounts stated. Living cull trees and young timber less than merchantable size are reserved from cutting. Payment for timber unless otherwise specified shall be based upon the estimated standing timber volume. IN BEN-TON COUNTY: T. 13 S., R. 7 W., Sec. 15, SE $\frac{1}{4}$ SE $\frac{1}{4}$ DA Fir 300 M. feet B. M., DB and DC Fir 800 M. feet B. M., Hemlock 35 M. feet B.
