

UNITED STATES
DEPARTMENT
OF THE INTERIOR
GENERAL LAND OFFICE
O. AND C. ADMINISTRATION
PORTLAND, OREGON

Sealed bids, marked outside "Bids for Timber," and addressed to the Chief Forester, O. C. Administration, 410 Custom House, Portland, Oregon, will be received until 10:30 A. M., Pacific Time, June 7, 1940, for the purchase of timber upon tracts hereinafter described; cutting and removal of the timber to be carried out in accordance with the forest practice rules approved on July 7, 1938 by the Secretary of the Interior. Each bid must state the amount per thousand feet, board measure, that will be paid for each species or class of timber. No bid for less than the appraised value will be considered. Each bid must be submitted in duplicate and be accompanied by a deposit. The deposit must be in the form of a certified check on a solvent National Bank and in favor of the Chief Forester of the O. and C. Administration. The amount of the deposit will be computed at the rate of at least 20 per cent of the first \$1000 of any estimated stumpage value; at least 10 per cent of the next \$9000 of estimated stumpage value and at least 5 per cent of any additional estimated stumpage value in excess of \$10,000 and up to \$25,000 in amount. The deposit of any successful bidder will be credited as a first installment in the payment of the timber. Checks of unsuccessful bidders will be returned upon award of the bid. A bond on all sales will be required in an amount computed at the rate of at least 20 per cent of the first \$10,000 of the bid, plus 10 per cent of any additional amount of the bid in excess of \$10,000. Payment for timber will be required in advance of cutting, payment in full at the time of filing the contract being required in sales amounting to \$2500 or less. In larger sales, payment may be made in a number of installments scheduled to keep pace with the rate of timber cutting and payable upon demand from the Chief Forester. The successful bidder in each sale exceeding \$5000 in amount will be required, prior to the approval of the contract covering such sale, to furnish a sworn financial statement showing ability to fulfill the terms of the contract. For copies of the form of proposal, form of contract and bond, and other information, application should be made to the Chief Forester, O. and C. Administration, Portland, Oregon.

The timber volumes, given in the following appraisals, are estimated and may be more or less than the amounts stated. Living cull trees and young timber less than merchantable size are reserved from cutting. Payment for timber unless otherwise specified shall be based upon the estimated standing timber volume. IN BENTON COUNTY: T. 13 S., R. 7 W., Sec. 15, SE 1/4 SE 1/4 DA Fir 300 M. feet B. M., DB and DC Fir 800 M. feet B. M., Hemlock 35 M. feet B. M., none of the timber to be sold for less than \$2.00 per M. for the DA Fir, \$1.75 per M. for the DB & DC Fir, \$1.00 per M. for the Hemlock. Trees below 24 ins. DBHOB reserved from cutting. City theater on Wednesday, introduces a brand new juvenile team, Jimmy Lyden and Joan Brodel, talented youngsters in their middle teens with years of stage, radio and screen experience.

Young Lyden is cast as an ill-treated orphan. Lonely and unhappy, he works on a ramshackle Arizona farm for his miserly uncle and shrewish aunt. When thieves steal a valuable brood mare from a nearby ranch, its foal wanders away and is found, sick and weak, by Jimmy. Unaware the animal is a thoroughbred, Jimmy cares for it, and despite his stingy uncle's protests, he raises it.

From this point on a desperate struggle wages in the breast of the lad. His duty is to return the colt, yet his love for the animal is stronger than his conscience. His mixed emotions are further aggravated by his uncle's abuse of himself and the colt, and with this suspenseful motivation, the drama builds toward the heart-pounding climax which is said to make this one of the most compelling stories of youth to reach the screen this season.

Consumption Of Gasoline Increases

Gasoline consumption in Oregon totaled 20,724,965 gallons during the month of April, 1940, it was reported at the secretary of state's office today. This represented an increase of 755,884 gallons over the consumption of April, 1939.

Total tax paid on the gasoline sold in the state in April amounted to \$1,036,248.28, an increase of \$37,794.21 over the tax paid for the same month last year. Translated into mileage, the gasoline consumed in the state indicated 237,093,610 miles of travel during the month, an increase of 3.5 per cent.

For the first four months of 1940, gasoline consumption totaled 71,742,643 gallons compared to 66,439,093 gallons for the corresponding period last year.

Of the total tax of \$3,587,132.5 paid on gasoline sold in Oregon during the first four months of the year, approximately \$430,455.87 goes back to consumers in the form of refunds on gasoline not used for highway purposes, or fuel purchased by governmental agencies.

Snell Asks Motorists To Use Caution

Earl Snell, secretary of state, today issued a plea for all motorists and pedestrians to cooperate in a campaign to prevent traffic accidents over the Memorial day holiday this year.

Four persons died in traffic accidents last May 30th and three more were killed in accidents late in the day of May 29th, indicating the importance of driving carefully during the time holiday traffic is heavy.

"There is certain to be an increase in traffic on most of our highways on Memorial day and the preceding evening," Snell said. "Many persons start their holiday trips the evening before and for that reason it is important to regulate your driving in accordance with the additional traffic you may expect to encounter."

Warning against the dangers of fatigue on long trips, the secretary of state urged all drivers to avoid staying at the wheel when they became drowsy.

"Most persons recognize the danger of falling asleep at the wheel, but many do not realize how dangerous it is to drive after they begin to get drowsy," he said. Most of us are inclined to think that we can drive safely even if we do feel a little drowsy, but scientific investigations have proved that the individual's normal reactions are greatly impaired by the approach of sleep."

Scientists explain this impairment by the fact that their tests have shown that in drowsiness, the individual's faculties are impaired by a "general obscuration of the intelligence and depression of the general sensibility and special senses," Snell said. This means that when one is drowsy, he is unable to react to outward stimuli at his normal rate and this factor may be the cause of an accident.

"When you begin to feel drowsy that is the time to let someone else drive, or to pull off to the side of the road and take a short nap. Don't wait till you are practically asleep at the wheel."

Earl House left for his home in Portland on Saturday where he has business interests to keep him busy during the summer. Mr. House taught typing and coached

athletics as well as starting the shop work in the high school this year.

Joe Walton, representing the Deer Creek Grange in Josephine county, was announced winner Saturday of the grange regional highway safety oratorical contest and is now eligible to enter the state contest at the state grange convention in Salem next month.

Mrs. N. R. Young and daughter Naida and son Evan of McCloud, Calif., spent the week end with the I. D. Drakes. Mrs. Young is a daughter of Mr. and Mrs. Drake.

More Counties Free Of Bang's Disease

Seven more counties, bring the total for the state to 12, have been recommended for Bang's disease-free ratings, reports Dr. W. H. Lytle, chief of the state department of agriculture division of animal industry. The counties are

Polk, Benton, Hood River, Marion, Lincoln, Douglas and Linn.

These counties will bring one of the main dairy sections of the state into Bang's disease-free accreditation. Other counties are near the borderline.
