MEETING PROSPERITY

Well, well, friends, here we are again back on the old familiar topic of meeting that good old character, "Mr. Prosperity." We have been passing this up for some time hoping that you would miss it, and so many have told us they do, we have decided to start all over again, and see if you remember where we left off.

In the first place, "Meeting Prosperity" absolutely depends on what you want. What do you most desire? It is necessary, very necessary to make up your mind on what you want. There must be some paramount item in your wishing well that is above all others, something that you want uppermost. Get that something focused in your mind's eye and never let loose of it. Think of it constantly, always believing that eventually you will get it. Work towards your goal. Never let it out of your mind. If you are faithful in your believing and working for your objective, it will come just as sure as you are alive. It never fails when the application is sincere and honest.

Don't get confused and think that you can just begin thinking about what you want and it will come to you. Maybe it will and maybe it won't, chances are it won't. "Meeting Prosperity" isn't all thinking. The great Edison once said that "success was 10 per cent inspiration and 90 per cent perspiration." Those who want what they want, can have it, but they will pay the price for it in hard work and a sincere belief that they can get it. With that combination, hard work and sincere belief, and we must add that you must keep the word discouragement out of your vocabulary, you are a cinch to win.

There are literally thousands of examples where

this practice has brought the recipients face to face with "Prosperity." There are also many ways to bring it about. Just as there are many different religions. But with all religions the great objective is to reach the Kingdom of Heaven. With this particular phase of the psychology of thought, there are also many avenues to reach the same objective. It really does not make any difference which avenue you take as long as you arrive. We have our own particular avenue which was taught to us by Claude Bristol of Portland, author of "T. N. T., It Rocks the Earth." And by the way we have a few of his noted book on hand if you want one, they cost a dollar, and if you practice it, it's worth a million.

If you sincerely want to get ahead financially, or you want a new automobile, or you want to pay off the mortgage on the farm, or if you are in love and you want the right girl—practice what Claude Bristol teaches and she's yours. That reminds us of a piece of poetry somewhat synonymous:

"Woman, woman, you're a peach,
Hanging ripe just out of reach.
Man may strive, stretch and strain,
Peachy hangs there just the same.
But the man who knows his biz—
Winks his eye—and peach is his."

Get your mind on your business—What do you want? Keep it there! Then do some striving, stretching and straining, and it's yours.

JOIN THE NAVY

Any boy who can pass the examination and has a knack of getting along with his fellow man, can go places in the Navy. With a large personnel necessary to man the new ships that are being built for Uncle Sam, the demand for men is urgent. If a boy has what it takes, he can make the most of a great opportunity.

It is now possible for a boy to join the Navy Reserves for the duration of the emergency, and learn and earn while serving his country.

The physical examination is rigid, and a boy must be in good condition. Suppose for instance that some small defect keeps you out of the Navy. There is yet another opportunity waiting for the boys. The CCC companies are crying for recruits, and our own local Oregon Caves company needs them. In the CCC you get your clothes, medical attention, board and room and a salary. Your chances of getting promoted in a company are most favorable right now, and the Oregon Caves company has several well paid jobs that are going begging for the lack of recruits.

Try the Navy first, and if you can't make it there, the Oregon Caves CCC company offers real opportunities. Why not investigate today.
