

4-H Clubs Enlist to "Keep Oregon Green"

Heads of the girls' and boys' councils at the recent 4-H club summer session at Oregon State college are here shown receiving their "Green Guard" shields after the entire group of more than 1000 clubbers had taken the pledge as Green Guards in the 1942 Keep Oregon Green campaign. Shown in the picture from left are N. S. Rogers, state forester; Lorraine Pilliger, Astoria, president of the girls' council; Donald H. Roseville, president of the boys' council, and Dick Kuehner, state director of the KOG program.

Ten Per Cent OF YOUR INCOME should be going into U.S. War Bonds and Stamps

Not everybody with a dollar to spare can shoot a gun straight—but everybody can shoot straight to the bank and buy War Bonds. Buy your 10% every pay day.

Wasted money is wasted lives. Don't waste precious lives. Every dollar you can spare should be used to buy War Bonds. Buy your ten percent every pay day.

"Assembly Lines" On Nation's Farms Yield Huge Output

The magnitude of the food production job undertaken by American farmers, including those in Oregon, is not fully appreciated because it is not concentrated in one plant, but is rolling off an "assembly line" of six million farm units throughout the country, points out Robert B. Taylor of Adams, chairman of the Oregon USDA war board.

"Every time a cargo ship sails for Ireland with food for American soldiers and their allies, it carries the average annual production of 3800 American farms," Taylor said. "These ships are loaded with products that might have come from Oregon farms—dried eggs, dried and evaporated milk, cheese, canned and cured pork, lard, and canned and dried vegetables."

To keep these vital supplies moving to wherever they are needed all over the globe, farmers in this state and throughout the nation are mobilizing behind production goals that are so large they are difficult to grasp, the chairman added. Breaking down food for

freedom production to an hourly basis, he cited the following figures:

Every hour of every day, America's farm plant produces 6,486,000 quarts of milk, 5,236,000 eggs, 134 carloads of hogs, 88½ carloads of beef, 2,696,000 pounds of potatoes, and similar quantities of vegetables, oil crops, and other products.

Besides food uses farm crops are directly in the war too, Taylor said. Cotton and alcohol are used to make smokeless powder. When a battleship fires a 16-inch gun, a bale of cotton and 16 bushels of wheat are hurled at the enemy. To paint the battleship required the oil from flaxseed produced on 169 acres.
