there is a certain routine which must be followed to get them written into the bill. I appeared and made a statement regarding them before the Appropriation committee. But before that committee will consider the matter, the Bureau of the Budget must submit the items. Before the Budget Bureau acts it must have requests submitted to it by the Bureau of Mines and must hear that Bureau's reasons as to why the money is necessary. All of this procedure takes time, but I am hopeful that when the routine is all properly followed, the appropriations will be made. The war effort needs the laboratory in operation and needs the coal from Coos Bay.

I believe we shall soon be able to have more help from the government on access roads — roads needed so that critical materials such as lumber and minerals can be brought out. Due mostly to wartime restrictions on manpower and materials, not all of the funds allotted Oregon under the Defense Highway Act must have been spent.

However, the portion of these funds designated for critical materials access roads have been exhausted. All unexpended funds will revert to the Treasury June 30 unless Congress acts. Accordingly H. R. 2113, if passed will make these appropriated and apportioned both unspent funds still available to the states. An important feature of this bill so far as my district is concerned is that limitations on the amount permitted spent on access roads is lifted so that part or all of the remaining funds could be used for this purpose. Unspent federal funds apportioned to Oregon and available under this bill total \$950,000. As to the progress of the bill above mentioned it has been good. The Bureau of the Budget has approved it. The Federal Works Agency has approved it. The Roads Committee of the House will begin hearings on it soon. I shall certainly do everything I can to get this legislation passed.

**"THE POPPIES HAVE ARRIVED"**

This was the word that flashed to members of the American Legion Auxiliary here today and brought many of them to the Legion Home to begin the work of arranging the little red flowers for Poppy Day, May 29.

The poppies, many hundreds of them, were in boxes shipped from Roseburg where they were made by disabled war veterans under direction of the Oregon department of the Auxiliary.

Shaped patiently by hand, each little flower is a replica in crepe paper of the flowers that bloomed on the battle fields of the first World War. Each is slightly different, but, as Emily Kellert, Auxiliary Poppy chairman explained, all have the same deep meaning.

"Flanders Fields are on the other side of the world from Guadalcanal and a quarter of a century distant in time but the little wild

poppy of Flanders speaks for the dead of both battles," said Mrs. Kellert.

"The poppy is the memorial flower for all who have died in America's struggle against world slavery, wherever or whenever they fell. We wear it to show that we remember them, honor them and are continuing to fight in the cause for which they died."

The poppies are being sorted and counted ready to go into the baskets of the Auxiliary volunteers who will distribute them throughout the city Saturday, May 29. Contributions received for them will aid the Legion's and Auxiliary's work for disabled veterans and families of service men.

**They can bar you from Oregon roads if . . .**

Under the new state law recently passed by the Oregon Legislature, if you have an accident causing any damage whatsoever, or if you are convicted for any offense under the Oregon Motor Vehicle Laws, you must be able to prove you are financially responsible for \$11,000. Otherwise they can take away your driver's license and bar you from the road forever. They can even suspend your registration certificate. Failure to comply with the law may bring about imprisonment and a heavy fine.

How many men could lay \$11,000.00 on the line? Could you? An insurance policy does this for you. M. C. Athey at The News office has just the policy that will protect you, and the cost is very small. Don't gamble away your right to drive. Prove your financial responsibility for \$11,000.00 now, this easy, inexpensive way. SEE
