SUMMONS

IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR JOSEPHINE COUNTY.

MAUDE ALICE HAYCRAFT, Plaintiff,
vs.
LEONARD FRANKLIN HAYCRAFT, Defendant.

SUMMONS. To Leonard Franklin Haycraft, Defendant:

IN THE NAME OF THE STATE OF OREGON: You are hereby Summoned and required to appear in the above entitled Court and cause and answer the Complaint filed against you therein within four (4) weeks from and after the date of the first publication hereof, and if you fail to appear within the time aforesaid, the Plaintiff will apply to the Court for the relief prayed for in the Complaint, viz: A Decree, dissolving forever the bonds of matrimony now and heretofore existing between the Plaintiff and Defendant, and that she be divorced absolutely from the Defendant, Leonard Franklin Haycraft; and that she be restored to her maiden name, Maud Alice Schwind; and for such other and further relief as to the Court seems just and equitable. This Summons is published by Order of the Honorable W. A. Johnson, County Judge for Josephine County, Oregon, dated the 7th day of June, 1943, ordering publication hereof in the Illinois Valley News for four (4) successive and consecutive weeks. Date of first publication, June 10, 1943. Sherman S. Smith, Attorney for Plaintiff, Postoffice address, 108½ S. 6th street, Grants Pass, Oregon. 6-9

CANNING SUGAR

(Continued from Page One)

lecting ration stamps. If you wish to give away more than that, you must collect ration points from the person to whom you give them although you need not ask for money payment for this food unless you wish.

Q. How many jars of jams and jellies may I give away?

A. Jams, jellies and preserves are not rationed, and you may give away as many jars as you can spare out of your allowance of five pounds of sugar.

Q. What is the point value of home canned food?

A. Home canned food has a point value of 8 points per quart and 4 points per pound or pint.

Q. May I sell canned fruits which someone else puts up for me?

A. Yes. But you must collect ration stamps at the rate of eight points per quart for every sale you make, regardless of who does the canning.

Q. I usually can several hundred quarts of fruits and vegetables to sell through the local farmer's market. May I continue to do so under rationing?

A. Yes. You may continue to sell home canned fruits and vegetables, but you must collect 8 ration points for each quart sold.

Q. What do I do with the ration stamps I collect for sales I make of home-canned food?

A. You turn the ration stamps in to your local ration board any time during the first ten days of the month following the sale.

Q. Must I make any special report when I turn in the ration stamps I collect for foods I sell?

A. No. But you must keep a record of your sales.

Q. How do I get sugar for canning fruit for sale?

A. You apply to your local board on OPA Form R-315 for the amount of sugar you will need, at the rate of one pound of sugar for every four quarts of finished fruit.

Q. May I also apply for sugar for making jams and jellies for sale?

A. No. You may have only enough sugar for preserving fruits for the use of your family —not more than five pounds per person.

Q. May I buy canned fruits and vegetables directly from the local canning factory?

A. Yes. But these cans are commercial products, and you must give up the same number of ration points for them as you would if you ought them at retail. The canning operator may sell them to you at a reduced dollar price if he wishes.

Yep, I'm a "big-shot" these days. They used to call me an out-moded farm worker, but not any more. I'm helping plant food for freedom and haul it to market just as in the old days. My pals and I work long hours, but we know it takes food and fiber to beat the Axis, so we're in harness for the duration.

THE OLD JUDGE SAYS...

"How about joinin' us in a game, Judge?... I'll drop out for a while."

"Sorry, Phil, but I can't today...I'm on my way up to the hospital to see how Frank's wife is coming along. I just dropped by to give you the answer to that question you asked me about synthetic rubber yesterday in the barber shop. I looked it up and found out that the beverage distilling industry's facilities for producing grain alcohol make it possible to include 200,000 tons of rubber from grain in the government's 870,000 synthetic rubber program.

"I also verified the fact that no distiller making whiskey today. They all stopped making whiskey last year and are workin night and day, 7 days a week, producing wa alcohol for the government...for smokeless powder, chemical warfare materials, medica supplies, as well as for synthetic rubber. It's a mighty good thing these distilleries were in existence ready to do this important job."
