

It Is Timely That We Rededicate Ourselves

To the Principles and Doctrines of the Republic of the United States of America on this year's 4th of July

Let us remember what our Forefathers fought and died for. They gave us a heritage too precious to jeopardize. Let us Rededicate all our resources and our energy in keeping and maintaining the Republic for which our Fathers died as they wanted it—as they wrote it—as they have maintained it for the last 167 years. We, the citizens named below, are glad to sponsor this advertisement and add our names to such a program:

THE OLD JUDGE SAYS...

"The more I read about it, Judge, the more I realize the tactics and requirements of this war are as different from the one I fought in 25 years ago as night is from day."

"Yes, and I can give you an example of how true that is, Fred. In World War I the chief uses of alcohol produced for war purposes were found in smokeless powder, medical supplies and chemical warfare materials. In this war the need for this product is far more vital because it is also used as a fuel to make shatterproof glass

for airplane windshields and instrument covers, to make lacquers used in camouflaging equipment and as a base for synthetic rubber needed for tires, gas masks, paratroop equipment and dozens of other things.

"Every time I think of it, Fred, I realize how fortunate we were in having a beverage distilling industry in existence when war broke out...ready and willing to convert 100% to the production of this critically needed war product. I'm mighty sure bootleggers wouldn't have."

Conference of Alcoholic Beverage Industries, Inc.

My milk goes all over the world. It keeps Uncle Sam's fighting men strong and helps the people of the other United Nations to stay in the war. We cows have been asked for 57,000,000,000 quarts this year. That's a lot o' milk, but we're doing our share to beat the Axis.

Dance with the American Legion Saturday, July 3rd in their hall at Cave Junction. Babcock's orchestra. Lunch at midnight. Tickets \$1.00.
