THE SMOKE JUMPERS

During the recent electrical storm which set a number of forest fires, the Smoke Jumpers had an opportunity to prove their worth, and this they did to the entire satisfaction of forest officials and to the general public as well, for they were the instruments that probably stopped several bad forest fires.

The Smoke Jumpers stopped five fires from spreading in very inaccessible areas. Normally it would have taken ground crews and pack trains 10 to 15 hours to reach these fires. This would have given them time to become dangerous fires that could have spread over several acres. The Smoke Jumpers were on the ground fighting the fires an hour after they were reported—before they had time to spread.

The forest officials can be proud of the record the Smoke Jumpers stationed at the Redwood Ranger station have made this, their first season. And they can thank their lucky stars for such a personnel as is maintained at the Redwood station, from Ranger Harold Bowerman, Smoke Jumper superintendent, Jack Heintzelman and on down the list.

UNUSED PRODUCE

It has come to our knowledge that much fruit and vegetables raised in the valley is being thrown away. The farmers have used all they desire of the crop and they have so much left that it is being wasted. This is a problem for some branch of the government which said they would take care of all excess produce if given sufficient notice, so that nothing would be wasted.

The farmers who have this produce, should let our County Agent, O. K. Beals know about it, so something can be done to save the crop, for there are millions of men, women and children hungry for it in foreign lands. We are throwing away enough fruit and vegetables to feed thousands of people in lands the Nazis have forced into privation.

INFLATION

Continued from Page One
fairs, which every American must understand:

Every available dollar which we fail to put into War Bonds compels our Government to CREATE A NEW DOLLAR—to take the place of the one we do not lend.

This manufacture of new money in great quantities has been the

root cause of every disastrous inflation recorded in history.

It is now going on in this country, by the billions of dollars monthly.

Our active money supply has ALREADY increased \$43,000,000,000 since the war began. It has more than doubled in that time.

If all of us—individuals and business firms—do not lend the government far more than we did in 1942, this increase WILL GO

BONDS OVER AMERICA

"Eternal vigilance is the price of Liberty."
Thomas Jefferson, author of these words, left a monument to freedom, the University of Virginia at Charlottesville.

University of Virginia

In Europe one of the oldest seats of learning is the University of Prague in Bohemia founded in 1348. It was seized by the Nazis and now only Nazi theories of a super-race are taught.

ON at an estimated rate of at least \$30,000,000,000 each year the war lasts.

Should this happen, with two more years of war, our money-supply would be inflated to a total almost FOUR TIMES what it was in 1939.

You do not need to be an economist to realize that this progressive enormous inflation of the nation's money-supply is at the same time piling up the difficulties of preventing a great and disorderly rise in prices.

This wartime manufacture of new money must be LESSENE GREATLY, if such a disaster is to be averted.

It is that necessity which explains the WHY behind the Government's colossal taxation and borrowing program.

You surely know that our Government, if it is forced to do so, could get the extra money it needs to pay its current war bills by running the money off the printing presses, the way Germany did in the twenties.

Have you ever thought, "Why doesn't it? Why does it tax me so heavily? Why does it bother me continuously about loans?"

The answer is: the Government in your long interests, must do everything possible TO KEEP TO A MINIMUM this wartime creation of new money.

The best way to lessen this perilous swelling of our money supply is by taxation. The next best way is for all of us—every individual and every business firm—to lend the Government every dollar we can reasonably spare.

Whatever you pay in taxes, whatever you lend, LESSENS BY SO MUCH the new money the Government is obliged to create.

This is the crucial role each one of us, as an individual, plays in safeguarding the future of the nation at home, while our boys do so abroad.

Whatever else you may be humbly doing for your country, in this momentous period, this basic responsibility of a citizen must be added to it.

It is hard—and may get harder—on everyone. But whatever the inconveniences and sacrifices may be, how will they compare with what will have been done by the 10,000,000 young men and women who, at their best years, have broken their careers to win the war?

What kind of land shall we let these boys come home to?

A DELAYED-ACTION BOMB!
—more deadly than a Jap incendiary

Observation Post News

(Continued from Page One)

In line with present interest in aircraft recognition, an energetic member of an observation post observed an unusual plane passing, while she was on duty. After much quandry and reference to late magazines, she decided that it was an English DeHaviland Mosquito bomber being ferried thru the territory. A few nights later, she attended a dinner where several Air Corps officers were present from a nearby field. She thought this would be an excellent chance to get some expert advice, and turned to one of the officers and asked, "Do you have any DeHaviland Mosquitoes here?" The officer replied: "Why, I don't know, I'm not a native of Oregon." We don't tell this to discourage interest in aircraft recognition, for instead we would like very much to increase everyone's interest in it. However, quite often the sector sergeants find people asking questions about planes that do not happen to be included in the recognition manuals, and some that do. One afternoon recently, a number of observers on the Oswego observation post fell into a discussion of a strange plane that was circling their vicinity. They finally decided that it was an A-20. They had plenty of time to look at it for there was a reason for its circling. Observer, Mrs. W. W. Davis was waving her dish towel at the plane for one of the crew members was her son Bob. So the observers at the Oswego post can thank Bob Davis for giving them a good look at an A-20.

CHURCHES

CAVE JUNCTION COMMUNITY CHURCH
Geo. H. Gray, Pastor.
Sunday School 10 a. m.
Morning Worship 11 a. m.
Song Service 8 p. m.
The Sunday School lesson was:

"What God wants our Nation To Be." Golden text, "Come thou with us, and we will do thee good." Numbers 10:29.

Rev. Gray's sermon was "Made Perfect Through Suffering." Text from the Bible "Blessed be God, who comforteth us in all our tribulation, that we may be able to comfort them wherewith we ourselves are comforted of God." I Corinthians.

Mrs. Clara Dick sang a beautiful solo, "I love to tell the story." There will be no service at this church next Sunday night.

Everyone is invited to attend the song service next Sunday afternoon at 2:30 at the Selma church.

YOUR DOLLARS

PAVE THE PATH OF INVASION

Everywhere our armed forces are smashing the enemy back in the new aggressive war of INVASION.

They are your sons, husband, brothers, sweetheart, father, relatives and friends. They ask only one thing—that you back them up ALL THE WAY.

With Victory coming nearer, you must not fail our boys—your soldier, sailor or marine. You're not asked to give a cent—only to put

every dollar you can scrape up into the world's safest investment—War Bonds.

Buy at least one extra \$100 War Bond during this \$15,000,000,000 3rd War Loan Drive in addition to your regular bond-buying. Everyone who possibly can must

invest at least \$100. Some of you must invest thousands. Take it out of income, take it out of idle and accumulated funds. Start "scratching gravel" now!
