THERE THEY ARE—Marines "hit the deck" as soon as they reach the beach and crawl ahead on their stomachs so they will be smaller targets for the waiting Japs. Here a squad leader points toward the spot from which the Japs are firing. His squad crawled ahead and eliminated the enemy strong point.

Navy Needs Young Men Aviation Cadets

A five-fold boost in quotas for naval aviation cadets has increased opportunities for many more young men to obtain the U. S. Navy's famed \$27,000 aviation education, today reported the Portland branch, office of naval procurement, 330 American Bank building, Portland, which handles applications in Oregon.

Naval flight training is now open to 18-year-old high school as well as 17-year-old boys, provided they are currently enrolled in high school in their last semester or are high school graduates. Eighteen-year-olds apply to the U. S. Navy first and if qualified they may volunteer through selective service for induction in V-5, the navy's flight training classification. Seventeen-year-old boys may enlist direct in V-5.

Because the flight training is rated the most thorough and the longest in the world, only boys in good physical condition are eligible.

Boys accepted probably will not be sent to school before four months. Any young man who is not found acceptable does not go into any other branch of the navy unless he desires to enlist. Cadets enlisted before they finish

school must graduate before they can go on active duty.

Cadets receive eight months training at a college handling the navy's V-12 program, followed by 15 months flight training. After completing this they are commissioned ensigns in the United States Naval reserve.

Applications may be made in this area by mail or in person to the Portland branch, Office of Naval Officer Procurement, 330 American Bank building, Portland Boys being given serious consideration will have their travel paid to Portland and home again so that they can be interviewed, given physical examinations and aptitude tests.

What You Buy With WAR BONDS
Holy Stone

Cleanliness is the first order of every American soldier and sailor and the United States Government spends millions upon millions of dollars to keep our fighting men as clean and as healthy as circumstances will permit.

"Swab the deck!" comes out a petty officer and the men fall to with their "holy stone" equipment and in a short time everything is spick and span.

SEE OUR SHIP OF VICTORY REACH PEACEFUL WATERS!
AMERICAN ships steam over the ocean lanes of the world, bringing troops, tanks, guns and shells to strengthen the forces of Victory. American planes streak across the clouds over the universe, destroying the areas where fascism bred—clearing a new trail for the people of freedom. And America's fighting men and women join arms with the fighting strength of the United Nations in unflinching effort to shorten the war and speed the Peace. Behind those ships, those planes, those fighters—are we at home, and our responsibility is great. We must provide the materials of war—and the ships that take them to far flung fronts. And, in the crisis of war, we must guard the system of free enterprise and safeguard the way of life that made America great. We must protect America from forces within as well as without our borders. Let us remember: We can WIN the war and LOSE the peace unless we are eternally vigilant. That is, and ever will be, the price of liberty! Today, let us launch our Ship of Victory on its voyage to peaceful waters!

Happy New Year

THOSE who are associated with Copco extend to all who live in "Copcoland" most cordial wishes for a VICTORIOUS and Happy New Year. We are grateful for your goodwill and glad that we have, through the years, been privileged to serve shoulder to shoulder with you in peace and in war. Let us continue our combined efforts toward speeding Victory and building a greater post-war Southern Oregon!
