

News From the Boys

(Continued from Page Two)

they overflowed into the Pass much? What is land worth there now? Has it gone up much in price? Is there much activity in real estate? Did land values around the Pass go up much as a result of Medford?

These are just a few of the many questions I'd like to ask you. Now to answering some of the questions you might ask me if I were there with you. First of all, these islands are not as bad as they are painted and we are not half as abused as some of the fellows would make it seem. For one thing the weather is not as bad here as it is painted. It is true that it is changeable and not very good for flying but it is not cold and the wind does not blow all the time. Some days are very nice all day. Other days are good for a while and then very bad. Generally speaking though,

this is much better weather than northern Minnesota where I was born and spent the first 21 years of my life.

We have two good theaters and they show late shows. We have a band and it plays at least once each week. We have a very good library with a wide selection of books.

Our quarters are clean, well heated and with what we brought with us or can make here they are better than many people have in the states. Radio reception is good and many of us have radios. We have shower rooms, recreation rooms, reading rooms, and all the facilities of any camp in the states. Our P-X has all the comforts we are not supplied gratis by the Army. Candy, cigarettes, magazines are plentiful and cheap. Our churches or chapels are close and our chaplains are the pick of the American ministers. I found a Methodist minister here from the county where I was born, needless to say that is the chapel where I attend services.

Fox are everywhere, they are mostly red but there are a few

Song Service 8 p. m.

WAR BONDS
in Action

Over the top in Italy! One more ridge, one more mile on the road to Berlin.

As in victorious military campaigns, people on the home front must sacrifice to provide all the sinews of war. One of these is the regular purchase of War Bonds.

U. S. Treasury Department

THE RAM THAT KNOWS THE RATTLE OF MACHINE GUNS

We take great pride in our livestock, for we have some of the best to be found anywhere.

England also takes pride in its livestock. Many of our breeds of cattle, sheep and horses come from there.

We think farming has been hard this past season, with the shortage of labor and machinery. It has been harder elsewhere. In England, for example, feed is scarce, meats are needed badly by the people, and German airmen machine gun the farm animals in the fields every chance they get. We must remember this all

the time—and buy War Bonds—all that we possibly can.

There are two good reasons for buying War Bonds. The first is that it will give our boys the guns and planes and tanks they must have. The second is that War Bonds are a sound investment. They never depreciate in value. They return a third more than the original cost in ten years. You can cash them if you need the money any time after sixty days. Buy Bonds now—to help your country and to help yourself—at your bank or post office.

"Greater love hath no man than this, that a man lay down his life for his friends."—John XV:13.

Is there any way you can EVER repay them?

No... of course there isn't... not if you lived to be a million years. But, you can carry your load... assume your responsibility to them... to your family... to your country. You can do it by winning the battle of the 4th War Loan... by opening your purse strings and buying War Bonds to the very limit. For what they are doing... surely this is not asking too much. They are depending on you.

You can help win the Battle of The 4th WAR LOAN
