CAVE JUNCTION COMMUNITY CHURCH

Fifty-two were at Sunday school and two visitors. The lesson was reviewed splendidly by Becky Freeman, using the feltogram board. Walter Farmer has been in the hospital for several weeks with a broken leg, and still will be there for some time. His Junior Sunday school class gave him a letter shower recently which was much appreciated.

In the choir at church were Mrs. Seat, Mrs. L. Sherier, Mrs. Hill, Mrs. M. Cross, Cleo Doney and Ann Sherier. Mrs. Cross sang a

special solo, "He Will Hold Me Fast." Rev. Gray took as his theme "Christ's Coming Again," based on 2 Peter 3:10. He said Christ has promised to return. We cannot afford to put business and pleasure first and God in the background. Are we ready for His Coming?

A fine attendance in the afternoon Community Sing was noted. A valuable addition to the program were the two solo by George Martin, accompanied with his accordion. Mr. and Mrs. Martin are the newcomers living on the former Calvert ranch. As their guests was the family of Mr. and Mrs. Fay Steele of Rogue River who also

sang a lovely number. The next song service is scheduled for June 11.

A large attendance is expected at the next missionary meeting, next Thursday, May 18, at the church, all day with covered dish lunch and the devotional message brought by Mrs. Lee.

Mrs. Iversen is doing nicely and will soon be home from the hospital. Mrs. Dow and Lee have been doing some worthwhile and much appreciated calling on new families in the valley.

BRIDGEVIEW COMMUNITY CHURCH

Special Mother's day service will be held at the Bridgeview Community church next Sunday morning, May 14th.

Two prizes will be awarded, one to the oldest mother, and one to the youngest mother in attendance.

The public is cordially invited.

Attention Voters

It has come to the attention of the undersigned committee of responsible citizens of this county that certain malicious and underhanded attack has been made upon CLARENCE H. BROOKS, candidate for the office of County Judge of this county. With all due respect to the other various candidates for this same office, we do believe in fair play, and so have taken time to investigate the charges made against the above named CLARENCE H. BROOKS.

OUR FINDINGS ARE:

That CLARENCE H. BROOKS has never been anything but the honest, upright, and outstanding citizen that we know him to be at the present time. He has given of his time and money all during his lifetime to building a better America. His character is of the highest type, and his honesty beyond reproach. His business ability has been proven in personal contact with other business men of this county. We fail to find or do we know of a single business man of this county who has anything to say against CLARENCE H. BROOKS, degrading his character, or that he has not been clear and clean in all business dealings. Having known CLARENCE H. BROOKS for a period of a good many years, we find him to be a man of clean, cool, clear thinking, and full of action to defend the right. We have never known him to retract from, or even indicate retracting from the right. We realize that no doubt CLARENCE H. BROOKS has made some enemies, such as any man will make who has a backbone, and judging from what we find his enemies are, we feel it much to the credit of CLARENCE H. BROOKS. We find he has made an open invitation to any responsible and re-

spected citizen of this county to come to his home for consultation. **YOURS FOR FAIR PLAY** (Signed) E. C. Neely, H. N. Parker, R. A. Gilmore, J. L. Stanbrough, Raymond A. Lathrop, L. E. Schmitt, R. A. Frost, Lew Krauss, H. P. Bearss, C. G. Sawyer, F. L. Sawyer, Joe Schmitt, George Wells, C. C. Castleberry, Wm. Ausland, D. M. Langworthy, Tyrrell H. Carner.

EDGAR W. SMITH
Democratic Candidate for
SENATOR
"The type of man we need in Washington"

Pd. Adv. Smith for Senator Com. Leo Smith, Mgr., Corbett Building, Portland

For County School Superintendent

Elect a man who has had broad experience in classroom and administrative work, plus 4 Years Superintendent of Josephine County Schools 1936-1940. A man who knows the teacher's problems and the problems of the patrons. A man not afraid of work. Progress without extremes. Spend within our means. **Qualifications** — Life credentials for Elementary and High School work. **Experience** — Teaching and administrative positions in Elementary and High Schools and State College. Installed state system of office records in the county office, collected and bound all school records for office reference. **Instituted the Library Pool Plan in Josephine County** Now in use in this and many other counties in Oregon by which hundreds of school dollars are annually saved. The County Auditor had this to say about my records: "In the case of the vouchers presented by the County School Superintendent, I went back of the vouchers and inquired of that official and found that he had maintained a scrupulously exact and detailed record." **If Elected** I propose to keep office costs as low as may be consistent with efficiency. Since 1939 annual costs have risen from \$2,842 to \$4,265 or a 50 per cent increase, while the number of rural schools to be supervised has decreased by approximately 33 per cent. Mileage costs rose from \$200 to \$300. **If Elected** I pledge a careful, courteous and impartial performance of my duties.

THE OLD JUDGE SAYS...

"Glad you dropped in, Judge. I was just trying to explain to Mary what you told us down at lodge last night...about all the grain used to distill war-alcohol not really being used up. She didn't realize it, either."

"It's true, Mary. Wherever the government has permitted distillers to purchase the equipment necessary to reprocess the used grain, at least 50% of the feed value (25% by weight) of the whole grain is being recovered and returned to farms like yours in the form of premium-quality live-

stock feed. Only the starch is removed during distilling...the part recovered is a highly-prized concentrate containing valuable proteins, fats and carbohydrates. The distilling industry really has taken a leading part in the development of new cattle and poultry feed products from reprocessed grain...products rich in vitamins B₁ and B₂...so essential to satisfactory growth and production. And the recovery of grain will apply also to the making of whiskey when production is resumed."
