

Oregonians Endorse Work Of Sen. Holman

Citizens Praise Results Gained For This State

Portland, Oreg., (SPECIAL)—The following quotations from letters are typical of hundreds received expressing appreciation of Senator Rufus C. Holman's effectiveness at the nation's capitol:

"I have witnessed your fights in our own state for the Oregon National Guard, and later in the U. S. Senate your fearless stand for adequate appropriation for our defense forces. You have truly been a champion."

NEW OREGON INDUSTRY

"I hasten to extend congratulations and sincere appreciation on behalf of the people of Oregon for the splendid work you have done in securing for Oregon the alumina clay plant."

"You are doing a commendable job in protecting the interests of the Pacific Northwest as well as the war effort."

"We have been dealing for the past 12 years with Oregon senators and congressman in Washington and never have we received such smooth cooperation and rapid handling of our every request for information and action."

"I want to congratulate you heartily on the successful outcome of your effort to obtain increased forest fire appropriations. This was a hard, fighting chance, but you took it and have won out. We are all indebted to you."

"May I express my sincere thanks to you for your interest and support given this recent deficiency appropriation bill to provide maternity care to wives of enlisted men in the armed forces."

"We take this opportunity of extending to you our thanks for your assistance which made it possible for us to secure tin plate to continue packing carrots, which would otherwise have gone to waste in this locality. We had been trying for weeks without any success until we called upon you."

TURKEY GROWERS SAVE

"Thank you for your efforts in behalf of the turkey producers of our state, as this means a saving to them of several hundred thousand dollars."

"People like and respect you for your independent and forthright position on the vital problems that are facing the country at this time."

"It is a pleasure to know that when some emergency like this arises that we have representation back in Washington that is able to produce results."

"At this time we want to thank you on behalf of the industry and the farmers for your efforts in seeing that the irrigation equipment was included with other farm equipment." (For priorities).

"I am sure that your resolution asking for a full and complete investigation of Federal regulations governing the distribution and sale of meat, poultry and dairy products will meet the universal approval of the growers."

FARM PROGRAM AIDED

"I want to express our appreciation of your great and effective help with regard to agricultural appropriations affecting the extension and research programs of the Land-Grant Colleges. Thank you for your assistance."

"Your activity in the Forest Fire Protection Appropriation is being very well received in the Pacific Northwest. You are doing yeoman service in this field. We are very appreciative of your interest in Extension matters. A number of land grant colleges have indicated their appreciation of your interest."

"It is nice to know that we have representation in Washington that understands our problems here."

Original letters containing these quotations may be seen at the "Holman for Senator Committee" headquarters, 408 Wilcox Building, Portland, Oregon.

Names of signers not published here as these were unsolicited letters written to Senator Holman during his present term.

Pd. Adv. Jerry Saylor, Sec. "Holman for Senator Com." Wilcox Bldg., Portland, Ore.

Shortages of food in the land of plenty have caused a number of people some inconvenience. One

thing you have not been deprived is Fluhrer's Enriched Bread.

This is the 75th Anniversary of the Golden Spike

This is the Golden Spike

It was donated for the occasion by David Hewes of San Francisco. The spike is now the property of Stanford University and is kept in the vaults of the Wells Fargo Bank.

...but we can't take time out to celebrate

Ordinarily we'd make quite a fuss over such an event as the 75th anniversary of America's first transcontinental railroad—of which Southern Pacific is a part. We'd have a "Diamond Jubilee," with ceremonies, celebrations, banquets and all the trimmings.

But in May, 1944, Southern Pacific people will have little time to honor the men who built the first railroad across America and drove its last spike home on May 10, 1869. We're too busy keeping the war trains rolling on our 15,000 miles of line.

The historic line that rounded the northern end of Great Salt Lake to Promontory, where the Golden Spike was driven, was replaced by the Lucin Cut-off. The old rails have long since been torn up and sent to war.

But if it were possible to send a message back through the corridors of Time, we would send the grateful thanks of a railroad at war to those determined men who conquered the Sierra 75 years ago...

...to Leland Stanford, Mark Hopkins, Charles Crocker and Collis P. Huntington, the "Big Four" who pooled

their slender resources, convinced Congress that California must be linked by rail with the other United States, and pushed the railroad through in spite of heart-breaking obstacles.

...to the thousands of Chinese workmen who helped lift the line over the Sierra Nevada with nothing but wheelbarrows, picks and shovels, and black powder... who hung from the cliffs in baskets and chipped the road-bed out of solid granite. They helped build a railroad that helps China now.

...to the eight indomitable Irishmen who, on April 28, 1869, laid ten miles and 56 feet of track in a single day—a record that has never been equalled.

The railroad they built is now a vital link in America's supply lines for the war against Japan. The railroad men and women who "keep 'em rolling" today salute the men who accomplished so much with so little, 75 years ago.
