

School Children Purchase War Bonds

Students in Oregon schools purchased \$9,059,992.50 in war bonds and stamps from September, 1943, to June 1, 1944, representing a per capita investment of \$34.33, it was announced by Mrs. F. W. Blum, schools-at-war chairman, Oregon war finance committee.

Josephine county pupils purchased \$83,171.50 of the \$9,059,992.50 amount, Mrs. Blum reports. "We are especially proud of Oregon's schools-at-war showing," stated E. C. Sammons, state chairman, Oregon war finance committee.

FSA Will Help Farmers Who Are in Distress

Farm Security Administration Supervisor, B. W. McEigh, states that the department started its new fiscal year program July 1st, to assist farmers with their credit needs.

Congress has authorized the FSA about the same amount of funds as last year for the financing of livestock, equipment and water facilities. The funds for land purchasing loans have been greatly reduced, due to the difficulty in securing good farms at reasonable prices.

This credit is available to eligible farmers who are unable to obtain convenient and adaptable loans from commercial credit associations. The government loans are based upon and developed around a specific current farm and home plan. To obtain this credit, it is essential that the use of the funds will assist the family in producing more food and give them an opportunity for better home security.

A committee of prominent farmers will assist in an advisory capacity, all families seeking assistance through this department.

Mr. Ben Nelson, Grants Pass is chairman; Clarence Sawyer, Cave Junction; Ben Watts, Murphy, and Ray Reeves, Grants Pass are the committee members. Mr. Watts was recently appointed on this committee. He is a life resident of this county and a very successful farm owner-operator. Mr. McVeigh stated that he wished to thank the committee for their past services and the newspapers for their good cooperation and publicity.

THE PRESCRIPTION

"Do you know what's good for de stomick?" "I ain't no 'thority, but I understand that food is highly recommended."

Accidents Will Happen

No matter how carefully you drive, accidents will happen. That's why no one can afford to drive a car without having insurance.

AAA Offers 60c Payment For Saving Legume Straw

Growers of vetch and pea seed crops in Oregon this season will be able to earn an AAA practice payment for leaving all the straw on the ground when combining, or by returning it to the soil if a stationary outfit is used, the state AAA office has announced. The payment amounts to 60 cents an acre.

This practice was authorized for the first time last year but the action was so late that little could be done to make it widely known. The fertilizer value of legume straw is very high and the additional organic matter improves soil structure. In making full use of such straw one of the best conservation practices, according to O. S. C. soil specialists.

COUNTY RESIDENT INSPECTS CANNERY

Mrs. Ada Buck has just returned from a trip to Portland. While there she had the pleasure of being shown through the Garden Home Community cannery by Mrs. Sara Wertz.

This cannery was made possible by the cooperation of five communities and they are canning the fruits and vegetables to be used in the cafeterias of the five schools as well as for home consumption.

It is entirely self-supporting each Victory Gardener bringing his own produce and preparing it for the cans. There is one paid operator and so far his salary has been taken care of by a small charge made

for canning for outsiders who do not care to or are prevented by other duties from preparing their produce, or from surplus stock.

The ground work for this cannery was laid last Fall when arrangements were made to rent a vacant elevator building, and memberships at \$10.00 each were sold, and Mrs. Wertz was loaned by the F. S. A. to go to Garden Home, a suburb of Portland, as instructor. How well she has done her job is now being demonstrated in shining rows of well filled cans of cherries, etc., now being processed at the plant.

The plant has a capacity of 2,000 cans per day of eight hours and they expect to process 100 million cans during the season.

Mrs. Buck went with Mrs. Wertz for a drive through the districts served by this cannery and they are made up of nice homes in the hills just out of Portland, and saw three of the five schools that will be serving this food to the children this fall and winter.

The Illinois Valley could very well use such a plant and with very little added expense a dehydration department could be installed. All it needs is very little money per family and a lot of cooperation.

Highest quality ingredients in Flührer's Enriched Bread make it the best.
