I'm the guy who looked at you from a U.S.O. poster some time ago. I'm the guy for whom you and millions of others gave and gave so generously. I'd like to tell you what was done with your money.

The money you gave last year helped give the boys the tonic of entertainment... a personal appearance by Jack Benny in Africa... by Gary Cooper in the South Seas... and by lovely women stars in remote places where just the sight of a feminine face is enough to make up for weeks and months of loneliness and isolation.

Your dollars made possible the U.S.O.—in addition to many other great services at home and abroad—3,000 U.S.O. clubs and U.S.O. Camp Shows.

The job is bigger this year... much bigger. Won't you be bigger than ever this year, too, and give generously?

THE OLD JUDGE SAYS...

"It sounds almost like a miracle, Judge... how did we ever do it?"

"American industry did it, Sally. When the Japs conquered the chief natural rubber producing centers of the world they thought they had dealt a death blow to our war effort. But, in less than two years, we are producing enough synthetic rubber in this country to supply all our military and essential civilian requirements.

"Our rubber experts knew how to make it but the most practical process at the time required huge amounts of industrial alcohol... far beyond the already over-

taxed capacity of our industrial alcohol plants. So, overnight, our country's beverage distillers stopped making whiskey and produced hundreds of millions of gallons of the vitally needed alcohol.

"As a matter of fact, Sally, a high government official said recently '...synthetic rubber is from 6 to 9 months ahead of where it could have been if alcohol had not been available for butadiene production.'"

"We were really fortunate, weren't we Judge, to have a beverage distilling industry in existence... able to help perform this great wartime miracle!"
