

# Quit Fooling Yourself

## GET THE FACTS:

Right now school costs are taking \$61.50 for each \$1000 assessed valuation out of your pocket, (you have so voted, and your schools are most certainly worth every cent they cost.)

## But

If by your vote on Friday, June 22 you vote for Consolidated 304 X Yes you will reduce your payment on \$1,000 assessed valuation.

**Pass this and pay \$33.40**  
**You will save . . . \$28.10**

**Quit Foolin' Around -- Vote 304 X Yes**

**And actually save money and have even better schools than you now have for \$61.50**
