

NIGHT COUGHS

due to colds

are eased, sticky phlegm loosened up, irritated upper breathing passages are soothed and relieved, by rubbing Vicks VapoRub on throat, chest and back at bedtime. Blessed relief as VapoRub PENETRATES to upper bronchial tubes with its special medicinal vapors, STIMULATES chest and back surfaces like a warming poultice.

Often by morning most of the misery of the cold is gone! Remember—**ONLY VAPORUB Gives You** this special double action. It's time-tested, home-proved... the best-known home remedy for relieving miseries of children's colds.

VICKS VAPORUB

Pull the Trigger on Lazy "Innards"

WHEN CONSTIPATION makes you feel punk as the dickens, brings on stomach upset, sour taste, gassy discomfort, take Dr. Caldwell's famous medicine to quickly pull the trigger on lazy "innards" and help you feel bright and chipper again.

DR. CALDWELL'S is the wonderful senna laxative contained in good old Syrup Pepsin to make it so easy to take.

MANY DOCTORS use pepsin preparations in prescriptions to make the medicine more palatable and agreeable to take. So be sure your laxative is contained in Syrup Pepsin.

INSIST ON DR. CALDWELL'S—the favorite of millions for 50 years, and feel that wholesome relief from constipation. Even finicky children love it.

CAUTION: Use only as directed.

DR. CALDWELL'S SENNA LAXATIVE
CONTAINED IN SYRUP PEPSIN

DOROTHY LAMOUR

star of "Riding High," a Paramount picture, is one of the many well-groomed, well-informed Hollywood stars who use Calox Tooth Powder.

McKesson & Robbins, Inc., Bridgeport, Conn.

CALOX TOOTH POWDER

One of the best home ways to **BUILD UP RED BLOOD** if you lack BLOOD-IRON

You girls and women who suffer from simple anemia that you're pale, weak, "dragged out"—this may be due to lack of blood-iron. So try Lydia E. Pinkham's TABLETS—one of the best home ways to build up red blood—in such cases. Pinkham's Tablets are one of the greatest blood-iron tonics you can buy! At all drugstores.

Works Soothing Magic In ARTHRITIS PAINS

Need the Fastest Relief, Longest Heat Comfort that can be found—thousands of sufferers now turn to **JOINT-EASE**—known for 40 years as **JOINT-EASE**—for greater relief because it contains not just one or two, but FOUR great pain-relieving medicines which bring ALL THEIR STRENGTH AT ONCE to relieve such miseries. For free sample write **JOINT-EASE 39-B** St. Hillowell, Maine.

None Better! **666** Works fast!
COLD PREPARATIONS
Liquid—Tablets—Salve—Nose Drops
Has satisfied millions for years.
Caution: Use only as directed.

PAZO for PILES
Relieves pain and soreness

PAZO IN TUBES!
Millions of people suffering from simple Piles, have found prompt relief with PAZO ointment. Here's why: First, PAZO ointment soothes inflamed areas—relieves pain and itching. Second, PAZO ointment lubricates hardened, dried parts—helps prevent cracking and soreness. Third, PAZO ointment tends to reduce swelling and check minor bleeding. Fourth, it's easy to use. PAZO ointment's perforated Pile Pipe makes application simple, thorough. Your doctor can tell you about PAZO ointment.

SUPPOSITORIES TOO!
Some persons, and many doctors, prefer to use suppositories, so PAZO comes in handy suppositories also. The same soothing relief that PAZO always gives.

Get PAZO Today! At Drugstores!

Washington Digest

Fossils Intrigue Bright Young Scientist-Farmer

One of 40 Talented Youth, Honored With Trip To Washington; Many Ponder Careers As Atomic Researchers.

By BAUKHAGE
News Analyst and Commentator.

WNU Service, 1616 Eye Street, N.W., Washington, D. C.

He knew what a sphygmomanometer was used for; that a decigram equals 1.5432 grains; and that septicemia and anaphylaxis are different. Besides that, he collects fossils—enough to fill the farm kitchen at his home near Ellensburg, Wash. That's why 18-year-old Jim Gibson got a free trip to Washington, D. C., where he ate buffalo steak at the zoo; drank tea at the White House; gave congress a critical once-over; and listened to Lise Neitner, physics wizard, talk on atomic energy.

Jim is one of 40 bright young high school seniors selected as finalists in the fifth annual science talent search, sponsored by Science Service of Washington, with scholarships offered by Westinghouse Electric company. Sixteen thousand scientific-minded boys and girls, from every section of the country, took competitive examinations on such things as sphygmomanometers and decigrams; wrote essays on "My Scientific Project"; were interviewed by leading scientists. Three hundred of them won special recognition; 260 were given honorable mention; and 40 "finalists," including

James Gibson

ing Jim Gibson, came to Washington, D. C., to attend the Science Talent institute.

I met Jim at the banquet which wound up the hectic weekend of interviews and sightseeing tours, and asked him how he'd happened to start collecting fossils instead of stamps, birds' eggs, or matchbox covers. Jim, a ruddy, rumped, serge-suited farm boy, scoffed at stamps as "dull." Fossils aren't.

One Fossil 20,000 Years Old

Why, just this year, he was nosing around some cliffs in his part of the state of Washington, and he came upon an interesting rock. That is, it would look like a rock to you and me. Jim saw something embedded in it. Maybe a bone. He and his fossil-minded companion hacked out the rock, and with considerable effort, lugged it into their car. It weighed 120 pounds. At home, Jim "liberated" what he had seen embedded in the rock. A small piece of wood. He took it to a scientific professor friend of his, and learned that what he had found was a 20,000-year-old fossil. Jim was as excited as if somebody had presented him with a brand-new 1946 model automobile.

The serious, brown-eyed youngster tosses decades and centuries around with great ease. Over the mushroom soup, he dug around in his crowded pockets and produced an odd-looking object.

"See this?" he asked.

"Um," I said. Another piece of rock.

"It's a shark's tooth," Jim explained. "It's eight million years old. Dr. Foshag of the Smithsonian Institution gave it to me."

I hurriedly rolled the conversational ball back to 1946.

"What does your family think of your fossils?" I wanted to know.

Well, it turns out that Jim, and his father, a dairy farmer, "batch it." Mr. Gibson has no objections to

fossils under the bed so long as they don't interfere with Jim's cooking. Yes, Jim does most of the cooking, but he's deprecatory on this score, saying his culinary exploits depend largely on a can-opener.

Likes Collector Of Brains

Girls? Well, to appeal to Jim, they'd have to be as smart as Lise Neitner. The little gray-haired feminine scientist whose research led directly to the development of the atomic bomb, impressed him most of anything or anybody he saw in Washington, with the exception of the cyclotron at the bureau of standards. However, there was one girl he met at the Science Talent institute who he admitted was "interesting." She collected brains.

He knows all about running a farm and he keeps bees as part of his 4-H club work, but Jim Gibson isn't keen about farming as a living. He prefers fossils. And he's casting a speculative eye on the field of nuclear physics—as are well over half of the scientific-minded youngsters who came to Washington this year.

Incidentally, at the same banquet, Science Service Director Watson Davis mentioned a few "firsts" this fifth group of young scientists had chalked up. They ate broiled buffalo steak without a qualm after viewing the live variety at the Washington zoo; they prepared a "talk back" report of their opinions on the atomic energy and Kilgore bills to be submitted to congressional committees... and among the group was one Missourian, said Mr. Davis... the first Missourian, he added, who had ever gone into the White House and had not come out with a federal appointment.

There is a strange paradox in congress and it may cost the Democrats the pro-tem presidency of the senate. It's the exact reverse of the "unholy alliance" of today—the coalition between the southern Democrats and the northern Republicans—and this is the way some of the crystal-gazers on Capitol Hill expound it:

There have been no real issues before the country over which the voters could tear their hearts asunder. But there have been some bitter ones within congress and among the Democrats in the senate especially, which have caused incendiary intramural political friction.

Senator McKellar, Democrat of Tennessee, has been, in the eyes of some of his more progressive colleagues, a brake on the wheels of what they consider their progress.

Senator McKellar has steadily and steadily bucked administration legislation, not merely the Fair Employment Practices bill, but other measures which the "liberal" element on both sides of the aisle have supported. Nobody denies that after the next election the Republicans are going to get some of those 17 seats in northern and western constituencies away from their Democratic opponents. They may get enough of them so the parties will be at least more evenly balanced even in the opinion of the more conservative prognosticators.

That is half of the proposition. The other half is the growing wrath of some of the liberals on the Democratic side who are very sore at McKellar for deserting the party line.

It is not out of the picture that enough of these liberals will be willing to kick over the traces and vote for a Republican president pro-tem or at least vote against McKellar and thus produce the strange but possible phenomenon of a representative of the minority party presiding over the senate.

This is not a prediction but it is the presentation of a paradoxical possibility, granted the trend of the times becomes the course of tomorrow.

The FCC must decide whether the new telephone recorder destroys the telephone's privacy. It might keep people from wasting telephone time, and think of all the things you wouldn't say if you knew they were going to be on the record! For one thing, it might make people more sympathetic toward radio commentators.

USO Pres. Lindsay Kimball says Americans move from vast enthusiasm to complete indifference. That's certainly true. Remember monopoly, Coue, mah-jong, miniature golf?

Practically every woman in America is pursuing polyamide products, these days. Polyamide is what nylon stockings are made of.

Homes Poured to Order

If we see anything approaching as resembling a huge concrete pourer accompanied by some apparatus out of a Superman cartoon it could be one of those outfits that now pours a man a home while he waits.

It seems that the machinery for producing such a home has been perfected and is already on the roads pouring home, sweet homes for people who want to get a parlor, bedroom and bath while they're hot.

The apparatus consists of a giant house-form or mould which is carted to a homesite. Then the cement mixer draws up and pours. After 24 hours a hydraulic derrick arrives, lifts off the form and... presto!... There she stands, the home complete if not beautiful!

All you have to do is chisel off the rough edges!

A man named LeTourneau has invented the housepourer and has been pouring 'em in Longview, Tex., and Vicksburg, Miss. Huge crowds gathered in each place to watch a machine lay a house just as a hen lays an egg.

All that remains to be done is to make the machine cackle at the end of the performance.

How simple! You buy a lot, phone the Day-A-Bungalow office and say you would like a four-room home right away. The man asks if you can wait a couple of hours. You say it's a rush order. Presently the apparatus trundles up and a man hops out with the query: "Where would you like this residence poured?"

Fulton Makes Good

Fulton, Mo., site of Westminster college, to which former Prime Minister Winston Churchill made a historic journey, is a town of 8,000 persons. It has a police force of only seven men. The college is one of the smallest in the world. But it is on the map now and how!

Up to now it had been known only as a place once visited by Jeff Davis and as a town where Bill Corum once dug sweet potatoes, danced the two-step and played basketball. But today out there they ask "Yale? Harvard? Princeton? Where are they?"

WITH THE WANT ADS

"Will swap my collection of swords, bayonets, daggers, roller skates, opium pipes for small electric organ, music box, &c. (N. Y.) F907."—Yankee Magazine.

Careful, mister! Your assumption that the labor-management crisis is over may be premature.

"I have an old magic book (about 1895) which exposed all tricks. It is a 'professional magician's book.' Will swap for four new pair of nylons size 10, (N. Y.) J909."—Yankee Magazine.

Don't be silly! You'll need everything any magician has got if you are determined to get nylons.

A nation-wide phone strike was averted and it's pretty much of a surprise to the public, which has become accustomed to having nothing settled.

Ima Dodo, by the way, thinks those "long lines" operators are the tall, stately ones.

Can it be possible that Henry Kaiser sold all that stock without knowing where he was to get the steel to make cars?

CAN YOU REMEMBER

Away back when there were more regular newspapers around than there were columnists?

Hirohito who never mixed with his subjects now walks around town and visits shops and stores. A hale fellow well blitzed.

"President Asks Americans to Eat Less."—Headline.

Judging from the portions being served in most restaurants, it won't be any too difficult.

Chester Bowles, the red-hot advocate of ceilings, is a Yale man and it is possible his yen to keep things down is a result of all those Harvard football scores.

Japan is so full of sweetness and light these days and behaving with such rare gentility that it makes most people mighty suspicious. It would make a lot of folks feel better if somewhere a Japanese leader would make a face and let out a fierce, belligerent yell.

Those atomic energy spies in Canada were on a "fission" trip.

How about striking from the coin "E Pluribus Unum" and substituting "I gotta get mine."

NEEDLEWORK PATTERNS

Blouse From One Yard of Fabric

5088

Smart Blouse

HERE is a smart blouse that even the most inexperienced sewer can put together in a couple of hours. Very pretty too. Takes just one yard of fabric in size 12—use flowered or plain rayon silk or satin. Bind the neck with a double facing of self material, which

forms the ties; pinch-pleat the cap sleeves and fasten with a bow, attach sash ties to back—and there you are!

To obtain complete pattern and finishing instructions for the One-Piece Blouse (Pattern No. 5088), sizes 12, 14, 16 included, send 16 cents in coin, your name, address, and the pattern number.

Due to an unusually large demand and current conditions, more time is required in filling orders for a few of the most popular pattern numbers.
