CROFT EASTER LILY Planting stock for at fair prices in keeping with quality, supply and demand.

JOHN W. HOGAN Brookings, Ore.

Soviet Marriage Russian marriage laws are quaint, judging from our standards. When a couple marries in the Soviet, they assume either the husband's name, the wife's name or if they want, they can retain their own names. Their children are also given a similar choice. As for alimony, the father is not the sole payer, as in this country. Either the mother or the father has to pay alimony, depending on who has the custody of the children. The alimony is a fixed sum of money which varies only with the number of progeny.

Baked Apples For baked apples, select sound fruit. Wash, core and cover with a mixture of sugar and water to satisfy individual's taste. Bake until only one-fourth done, then place in No. 2 Re-enamelled cans to within one-half inch of top. Cover with the sweetened juice to fill can. Seal immediately and process for 25 minutes in boiling hot water bath. Cool quickly, dry and label.

Cooking Game The secret of cooking any wild meat is to conserve moisture. Wild meat is naturally drier and tougher than domestic meat. The general rule is to cook game for a longer time at a lower temperature than other meats. While homemakers do not cook domestic meat in covered pans, this method is often better for wild meat. The covered roaster is best for long, slow, moist cooking.

Korean Capital Seoul, or Keijo as the Japs called it, became the capital of the Yi dynasty of Korea in 1392. It saw the development of a golden age in Korean education, science and art. It was the seat of government when the Japanese invaded the peninsula in 1902, only to be thrown back in what was, until lately, the only defeat of the belligerent islanders. In 1910, when Japan finally achieved her ambition of annexing Korea, as a first step toward Asiatic conquest, Seoul was made the headquarters of the ruling governor general.

American Indian Origin of the American Indian has long been a major ethnological problem. Most authorities agree that they were Mongolians, coming here from Asia by way of the Bering Strait. Other anthropologists, however, claim that the American Indian originated in Malaysia. In 1924, when a law was passed providing that all non-citizen Indians born within the territorial limits of the United States were thereby declared citizens of the United States, they were given the right to vote.
