**Sorry —
But You'll
Have to
Wait . . .**

THE delay in the Nation's reconversion program has resulted in an acute shortage of transformers and electrical materials—those things so necessary to bringing electricity to your home or business establishment. Increasing demand for service has depleted our reserve stocks and we must simply wait until the supply catches up with the demand. Even though power lines may be near your property it will be impossible for us to bring to you the convenience of electricity until needed materials are once again available. We are sorry that this delay is necessary; we hope it will not be long. In the meantime, we hope that you will not be inconvenienced.

The California Oregon Power Company
