Plants That Swim Despite the fact they are plants, and not animals, many species of water algae are able to move about by swimming. Brown algae range in size from forms that can be seen only under the microscope to others 200 feet long. Algae differ from fungi in that they can extract and build up their food from inorganic substances. Seaweeds are the most familiar representatives of the algae family.

## War and Population

Although nations involved in World War II count their total war dead at 15 million, the world's population now is 10 per cent larger than it was in 1939. That increase is one of the reasons for continued hunger in countries which have not been able to restore food production to its prewar level.

## What is a Dairy Cow?

The term dairy breed has been accepted by stockmen and investigators as referring to the breeds of cattle that are especially well fitted for production of milk and butterfat. Such breeds represent the efforts made by breeders of many generations toward improving the milking capacity of certain classes of cows. Because of this fact the inherent tendency of registered dairy cows to produce milk is greater than that of a native or unimproved cow. This inherent capacity is transmitted to the offspring.

## Old and New Cookie Favorites Rank High For Snack Purposes

Do you like to have people dropping in just to be neighborly? Do you have youngsters who bring their friends home often? Then you'll want to have the cookie jar well stocked at all times with old favorites and new.

A cup of hot chocolate and a cookie mean something to every youngster, especially when the weather is bitingly cold; and it also means something very special to your own friends who may just happen to drop in.

Spread your friendliness and cheer in this way with others and you'll be a happier person.

It's easy to have cookies on hand if you select those that are quick to fix and easy to keep. You'll feel a lot easier about inviting people in if there's always a snack or two ready.

In view of the prevailing high cost of butter and shortenings, the cookie baker must be careful to select recipes that spare these precious products.

Nut Macaroons. (Makes 3 1/2 dozen) 4 egg whites 1/2 teaspoon salt 1 teaspoon almond extract 1/2 teaspoon vanilla 3/4 cup sugar 3 cups cornflakes, slightly crushed 1 cup pecans, coarsely chopped 1 cup coconut

Add salt to whites and beat to a coarse foam. Add flavorings. Add sugar by one tablespoon proportions, continuing beating until liquid is stiff and glossy. Fold in cornflakes, nuts and coconut. Drop from teaspoon onto well-greased baking sheet. Bake in a moderate (350 degree) oven until delicately browned, about 15 minutes. Remove promptly from baking sheet.

Sift together first four ingredients; add sugar; mix in shortening with a fork. Add unbeatens eggs and flavoring and mix thoroughly. Add fruit, nuts and milk. Drop by spoonfuls on a greased baking sheet. Bake in a moderate (375 degree) oven for 10 to 12 minutes.

Scotch Shortbread. (Makes 3 dozen) 3/4 cup butter 1/2 cup powdered sugar 2 egg yolks 2 cups flour 1/2 teaspoon baking powder

Mix butter and sugar together well. Add egg yolks. Fold in sifted dry ingredients. Roll out 1/4 inch thick; cut in desired shapes. Prick with a fork. Place on baking sheet and bake in a moderate oven (350 degrees) about 20 minutes or until a delicate golden brown.

HOUSEHOLD HINTS Holding onions under water while peeling makes it a tearless process, and keeps the onion odor from penetrating. . . . To flour chicken evenly for frying, place the flour in a paper sack, then the pieces of chicken, and shake vigorously. . . . Adding a teaspoon of lemon juice to the water in which rice is boiled will help separate the grains of rice. Released by WNU Features.

Leftover breads, rolls and crackers may be toasted and served with spread. If they are very hard and old, have them thoroughly dry or toasted and then put through the food chopper for bread crumbs.

The best way to keep lettuce is to wrap it in waxed paper and place it in the refrigerator unwashed. It is likely to turn brown if it is washed.

Soured milk and cream may be used to make gravy for meats, such as veal. Also use them for baking breads, cakes or cookies.

Shortbread is a rich but very delicious cookie, very delicate in texture. No flavoring is used so it must come from the butter and sugar primarily.

Scotch Shortbread. (Makes 3 dozen) 3/4 cup butter 1/2 cup powdered sugar 2 egg yolks 2 cups flour 1/2 teaspoon baking powder

LYNN SAYS: Solve That Leftover Problem Easily Meat juices and gravy are excellent to use with meat or even vegetables for flavor. Cooked cereals may be chilled and sliced, fried and served with jelly or syrup. Canned fruit juices are easy to use in fruit salad dressing, such as thinning mayonnaise, pudding sauces, flavoring milk or basting meat. Use also for liquid or any part thereof in gelatin salads or desserts.
