Copco Makes Good Profit for the Year

The California Oregon Power company reports 1947 net income of \$1,553,910.44, equal, after preferred dividend requirements based on shares outstanding as of December 31st of that year, to \$2.53 per share on 450,000 shares of common stock.

A. S. Cummins, president of the company, stated that the regular annual report covering 1947 operations will be released early in March.

SOCIAL SECURITY MAN WILL BE IN GRANTS PASS

Carl D. Monroe, manager of the Eugene office of the Social Security Administration, will be in Grants Pass Wednesday, February 18, to assist individuals in filing claims for their old-age and survivors insurance and to answer any questions concerning the So-

cial Security act. Monroe may be reached at the office of the Oregon State Employment Service in Grants Pass from 8:30 a. m. to 2:30 p. m.

Washington Letter

(Continued from Page One)

made to bring about the use of this hospital, veterans in the Pacific Northwest have suffered from lack of care. More than 200 cases have been approved for hospitalization but are unable to be assigned at this time because of lack of space. The nearest domiciliary facilities for the Northwest are at Los Angeles and Hot Springs, North Dakota. I believe the above information illustrates adequately how arbitrary bureaus of the government can sometimes become. I am endeavoring to secure a hearing on my bill before the House committee, and I believe that, when the House and Senate committees complete their

studies of this matter, the genuine facts of the situation will be known, and the decision can be made on the merit rather than on prejudice, fictitious objections, and cost estimates.

Some member of Congress, and

I have not yet learned who, in all seriousness wrote a statement for a newspaper in his district referring to the Marshall Plan as the "Bi-Partisan European Recovery Program." The newspaper headline writer condensed it to BERP!

Where Corn Grows Small
A variety of Brazilian corn has ears the size of a man's little finger and kernels no larger than mustard seeds.

BERKELEY
Jet Action . . . is automatic and positive. Stays primed even on low capacity wells.

300 to 4500 G. P. H.
from water levels 20 to 200 feet vertical depth.

BERKELEY OFFERS THREE TYPES OF PUMP TO OPERATE WITH THE SAME DEEP WELL JET . . .

1. VERTICAL ELECTRIC MOTOR DRIVE UNITS (as illustrated). Pumps and motors are built together to provide the most economical, efficient and compact unit. No belts, gears, or rods.
2. HORIZONTAL ENGINE DRIVE UNITS, with air-cooled engines mounted directly on the pump—no belts or couplings. Compact, light weight, easy to operate.
3. HORIZONTAL PUMP UNITS ARRANGED FOR BELT DRIVE by any prime mover available. Pump shaft speeds from 1800 to 2700 revolutions per minute.

It's Just Plain Common Sense

That car of yours cost a lot of money. It's just plain common sense to have faulty brakes fixed immediately . . . to have inadequate lights made right . . . to have necessary adjustments taken care of before they grow into larger troubles. We can put your car in top condition for so little. Then you can smile at driving hazards, steep hills, sharp curves . . . and let those who don't use common sense pay the bill.
