WHICH WILL YOU BE CATCHING WHEN YOU'RE 55?

MOST FOLKS dream of being able to take things easy after 55... of being able to pursue a life of leisure while they're young enough to enjoy it.

But unfortunately, many of us find ourselves at 55 still catching the bus to the job instead.

The reason: lack of enough money to retire on.

Lucky for you, however, there's a safe, sound way to protect your future financial security today—U. S. Security Bonds!

Security Bonds require only a little spare cash every week—yet return you a whopping big nest egg in ten years. For example: as little as \$3.75 invested regularly every week will bring you \$2,163.45 by 1958!

And there are two easy, automatic ways to get your Bonds.

1. If you work for wages or salary, you can get your Security Bonds through Payroll Savings—the only installment buying plan.

2. If you are in business, or in a profession, and the Payroll Savings Plan is not available, you can sign up for the Bond-A-Month Plan at your local bank.

Choose the sum you can afford and sign up today. Then, at 55 perhaps you can start catching fish—and forget about catching that bus every morning!

P. S. Your Security Bond dollars do more than give YOU security. They help you fight inflation. For wise saving means more sensible spending—fewer dollars to bid up prices on scarce goods. Also every dollar invested in Bonds retires an equal amount in inflationary credit.
