Which Wire Rope Is Best?

Although initial cost of preformed wire rope is somewhat higher, it is our experience from actual operation that it affords the biggest value.

MY POLICY

I have been asked many times what policy I would follow if elected County Commissioner of Josephine County, and I will briefly state what my policy would be:

FIRST—I would insist that all County business be open and above board, with no special favorites, and courteous attention would be given every person having business with the County.

SECOND—A full and complete report to the people would be placed in the local papers, showing receipts, expenditures, of whom bought, and to whom sold, of all county boards and organizations.

THIRD—All sections of Josephine County would receive the same attention, and I would make regular trips to see and confer with the local people as to their needs, etc.

FOURTH—So far as I could, I would insist that all timber sales, and sales of other County assets be by competitive bid, and the funds applied where they should be.

Personally, I have been a resident of Josephine County for over 40 years; am a farmer and a stock raiser, and a Charter member of the Provolt Grange.

If you believe in the above policy, I would appreciate your support for County Commissioner in the Primary election to be held May 21st.

 No. 60 ON THE BALLOT

I HAVE DONE MY BEST
 FOR THE ILLINOIS VALLEY

I agree, the best I could do was too little, but it has been the same in all sections of the county.

If re-elected, I will continue to do my best for the Illinois Valley.
