AUTOMATIC WATER SYSTEMS

Shown above is the popular Model VS-50 Shallow Well Stay Prime Water System.

EASILY INSTALLED — because two suction openings are provided in different positions. Either may be used to suit the installation.

SIMPLE IN DESIGN — because there are no complicated parts. Model VS-50 is a centrifugal pump with built-in removable jet. The impeller is the only moving part.

CHEAP TO OPERATE — because the impeller is smoothly machined and carefully balanced for highest efficiency. Silence and freedom from vibration mean a long and trouble-free life. AND IT STAYS PRIMED. A wide variety of centrifugal pumps are now available for farm, home and industry. Ask for information and literature.

Saturday evening Herb Johnson and Karl Preston showed a movie on the lawn of the O'Brien camp for friends and neighbors. They were beautiful, interesting and instructive and showed Vanport flood ravages. Smith River, Crater Lake, Grand Canyon, Yellowstone National Park, Royal Gorge and other points. Also some local scenes of the Wanda Brown-George Lugt wedding.

C. V. Lackey's daughters and family left for their home in Los Angeles after a two weeks visit with relatives at O'Brien.

Jim Curnow wishes to thank friends of Illinois Valley and O'Brien for cards, letters, flowers and kindnesses sent during his illness in the hospital.

Last Sunday Mrs. Marie Wilson entertained some members of the Josephine County Health department at her home with a picnic lunch. After a bountiful repast guests assisted in hoisting in several pipes up the hill for installation of the water system from Little Rock Creek. As a matter of fact Dr. S. B.
