A change of dates has been made in the 1949-50 basketball schedule. Changes are: The game with the American Legion has been changed from December 22 to December 20; the game with Myrtle Creek has been changed from January 20 to January 17.

EXECUTIVE COUNCIL MEETS

Last Thursday morning a meeting of the executive council, the judicial council of the student body, and all faculty members was called by Mr. Hagen for clarification of issues concerning both students and teachers.

The meeting was very successful and gave the group the feeling that all of us are working together by the democratic process, and, with our form of student government, cooperation of all is necessary for its success.

We have a school committee of students and teachers working on a program for improved school relations.

This committee is composed of Mr. Bengé, Mr. Pope, Mr. Kelley, Mrs. Myrtle Kelly, Mrs. Ferris, Keith Haggard, Bill Kester, Charline McDaniel, Arnold Stubblefield, Joe Mellow, and Glenn Overstreet.

What's Going On In the Classrooms

HIGH SCHOOL MIXED CHORUS WORKING HARD

(By Jean M. Hanseth)

At the beginning of the school term, the school chorus received selections that were to be sung this year. Later, the chorus began working on several new compositions, entitled, "Green Cathedral," "Without a Song," "Great Day," and "Smoke Gets in Your Eyes."

The chorus sang "Smoke Gets in Your Eyes" for the minstrel show, November 22nd. The chorus is now working on the Christmas Cantata.

SCIENCE CLASSES ARE ADVANCING FAST

(By Keith Haggard)

Under the direction of Manford Ferris the current studies in science are advancing in varied and interesting style.

At present the chemistry class is studying chemical formulas and equations in relation to specific chemical reactions illustrating various types of chemical changes.

Force and motion and their practical application in the machine world are the topic in physics.

The biology class is studying the anatomy of the earth worm, fish and frogs. They have recently completed a study of the structure

General science is currently occupied in a study of the operation principles relating to simple machines.

LATIN AND ENGLISH STUDENTS ADVANCING

(By Sharon Bengé)

In Mr. Bengé's Latin class the students are translating stories, poems, and biographies of famous men from Latin into English.

The students in English II are studying transitive and intransitive verbs, voice, tense, mode and number.

In English III the students are studying grammar and a small portion of literature.

The English IV class is studying Shakespear now. Five of his plays have been read and discussed, they are, Romeo and Juliet, Hamlet, Midsummer Nights Dream, Twelfth Night, and the Tempest.

PHYSICAL ED. CLASSES

(By Glenda Robinson)

In Mr. Pope's physical education classes the boys have started tumbling and for the past week they have all been very busy taking their efficiency tests.

Every Friday there is a co-educational activity period instead of the regular gym class. This consists of old time dancing. The boys have learned many new dances and they enjoy dancing.

Mr. Pope is also in charge of other activities such as the smokers and football. Basketball practices are well under way and we hope that we shall have a championship team this year.

HEU Christmas Party

The HEU Christmas party will be held at the home of Mrs. Blanche Lackey in O'Brien next Tuesday, December 13, at 11 a. m. A potluck luncheon will be served at noon, followed by a gift exchange.
