Robinson's Tractor And Equipment Company Is Valuable To Farmers

One of the Grants Pass firms that has lent its assistance to the farmers of this section is Robinson's Tractor and Equipment Company, distributors of the famed Ferguson Tractors and farm machinery.

Robinson's Tractor and Equipment Company carries a complete line of farm machinery, parts and features a complete repair service. Their service does not end with their customers at completion of a sale. By this we mean that farmers who purchase their farm machinery from Robinson's do so with the understanding that any time they are welcome to drop in and ask advice as to the usage of this equipment.

This advice is given freely and places the customer under no obligation. They also welcome any inquiries by mail and will be glad to have one of their representatives visit your farm or ranch and explain the many advantages of the Ferguson System of Farming.

In this day and age of modern farming the progressive farmer appreciates the necessity of modern equipment in order to derive the best results, and when using machinery from Robinson's Tractor and Equipment Company at 506 M Street in Grants Pass, many farmers have found that their line of farm machinery is the best to be had on the market today.

In presenting this article devoted to the interest of the farm industry we suggest to our people to drop in at 506 M Street in Grants Pass, on your next trip to town and look over their line of Ferguson Tractors and Farm Machinery.
